

PURE ORIGINS
PREMIUM AUSTRALIAN HONEY
PRODUCT CATALOGUE

OUR STORY

We are an 100% Australian family owned and operated business with a notable history in the agricultural industry. Founded and manufactured in Australia, we aim to provide people all over the globe with only the finest liquid gold. South Australia's first Australian Manuka honey brand.

Pure Origins honey is cold extracted and packed at temperatures that can be lower than the actual beehive itself. Although it takes longer to pour, the honey retains all of its crucial enzymes, anti-bacterial properties and nutritional value.

Each batch of our premium Australian Manuka Honey is lab tested for its authenticity and purity at approved laboratories and verified for its MGO rating.

Pure Origins is proudly partnered with a number of ethical Australian bee-keepers who help us produce the best possible product for you and the family to enjoy.

EXPORT LEADERS

For the past 13 years, Pure Origins has consistently showcased excellence in exporting, as reflected in our numerous nominations and prestigious awards, including the title of **Winner of the 2023 South Australian Premier's Food and Beverage, Exporter of the Year.**

We proudly export our premium Australian honey worldwide. Sold in over 16 countries, including the **USA • China • Japan • Middle East • SE Asia • Europe • Singapore**

We are **Certified HACCP**, organic and an **Australian Government export approved facility**. Each batch of our premium Australian Manuka honey undergoes authenticity testing at accredited laboratories and is verified for its MGO rating.

THE ESSENCE OF PURE HONEY... WHAT SETS OUR HONEY APART?

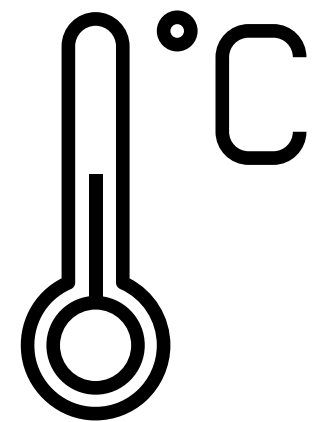

100% AUSTRALIAN

We're 100% Australian owned and operated. Our honey is pure Australian sourced from vast areas of untouched wilderness around Australia. This creates the perfect environment to produce pure, natural honey.

RAW

Our honey is as close to its natural state as possible. It's cold extracted, direct from the honeycomb and is not pasteurized. We strain the honey to get rid of any tiny particules of waste.

COLD EXTRACTED

Cold extracted honey refers to honey that is processed without the use of heat. Our honey is packed at temperatures lower than the beehive itself. Although it takes longer to pour, the honey retains all of its crucial enzymes and nutritional properties.

SINGLE ORIGIN

We pride ourselves on sourcing our honey from a single origin, meaning we receive our honey from one specific region in Australian. This honey isn't mixed or blended; it's bottled and delivered right to your door. From Hive to Home.

NATIVE AUSTRALIAN RANGE

Sourced from remote regions of Australia, each one of these Native honey range boasts a unique flavour that captures the distinct floral essence of its specific harvest origin.

Manuka Honey Signature Blend

Unit Weight: 500g (17.6oz)

Dimension : 84 MM x 67 MM x 120MM

Carton Qty : 12

AUSTRALIAN MANUKA HONEY

Harvested from the pristine forests of Australia, where bees feed on the nectar of the native Manuka blossoms.

MGO (Methylglyoxal) the active ingredient in Manuka, naturally forms in the nectar of the flowers of the Manuka bush, ready for collection by the honeybees. The higher MGO rating, the greater the antibacterial properties and health benefits of the honey.

Used by traditional cultures for thousands of years, Manuka is rich in antioxidants, vitamins and minerals, supporting overall health and well-being.

- Rich in Antioxidants, vitamins, and minerals
- Supports Overall Health and Well-being
- Independently Lab-tested for Purity, Authenticity and MGO rating
- Used by Traditional Cultures for Thousands of Years
- Soothes the Throat, Natural Sweetener and Energy Boost
