Company Profile

# Introduction

Thai Narin Fruits Co., Ltd. was established in 2004 and started doing a factory producing freeze-dried fruits and vegetables on 2015. By using modern technology “Freeze Dry” to add value to Thai agricultural products. It is very popular today.

“Freeze Dry” is one of the best food processing technologies that “NASA” used to prepare various meals to eat on space exploration projects. “Freeze Dry” is a process that removes water from fruits by freeze to freezing point until hard first. Then under vacuum sublimates the ice crystals in the products into steam without high heat like other technologies such as baking with hot air or drying in the sun with a high temperature, so that making it the best way up to 97% of the preserve nutritional value. It also can maintain the appearance, taste, color and aroma as close to fresh as possible, 100% natural. It is very light, with a dry, crispy texture and intense, concentrated fruit flavor. And helps whether be stored for a long time without using preservatives. And has not been fried with oil or mix any seasonings at all. Therefore, the crispy freeze-dried fruits are without oil, trans fat and no sugar added. It is very good for health.

# Introduction

Our freeze-dried machines can dry seasonal fruits and vegetables, snacks, food and all kinds of drinks. And Thailand is not only having variety of amazing food but also tropical fruits. So, from fresh fruits our factory produce it become healthy snack with no additive, we are meticulous in every process to offer the best quality healthy and tasty. Our main products are durian, mangosteen, mango, jackfruit, longan, rambutan, pine apple, strawberry, banana and others seasonal fruits and vegetables.
