## ROSE CRIMSON GLORY ABSOLUTE

### 墨红净油

The Crimson Glory is known as 'Queen of Flowers', with a large flower shape, crimson to dark color, a velvety texture, a rich and pure rose aroma. It is planted in Yunnan Province, China, where the climate is warm and pleasant, sufficient sunlight and abundant rainfall. Crimson Glory Roses are rich in anthocyanins, which have higher medicinal value and a longer lasting fragrance than ordinary roses. The Rose Crimson Glory Absolute extracted from roses has the effects of comb female beauty colour, endocrine regulation, anti-inflammatory and antibacterial properties.

墨红玫瑰被喻为“花中皇后”，花型大，花色深红，有丝绒般的质感，花香浓郁纯正。墨红玫瑰主要产自我国云南，得益于云南四季如春，光照充足，雨水充沛的独特地理条件。墨红玫瑰富含丰富的花青素，比普通玫瑰的药用价值更高，香味更持久。通过墨红玫瑰提取的净油，香气饱满，具有美容养颜、调节内分泌、抗炎杀菌的作用。

## DAMASCENA ROSE ESSENTIAL OIL

### 大马士革玫瑰精油

Damascus Rose is a small prickly shrub, approximately 1 to 2 meters tall, with sweet aroma, pink, and leaves covered with white fine hairs. Our employees manually pick flowers before sunrise and then distill them to obtain essential oils. Damascena Rose Essential Oil contains more than 300 chemical ingredients, including hundreds of aromatic substances such as citronellol and geraniol, and skin care essence including organic acids. It has functions such as antioxidant, moisturizing skin, calming emotions.

大马士革玫瑰是一种小型的多刺灌木，大约有 1 到 2 公尺高，花朵气味芬芳，通常是粉红色的，叶片覆有白色的细毛。我们的员工都是在日出前以人工摘取花朵，然后在当日进行蒸馏，得到精油。大马士革玫瑰精油中含有 300 多种化学成分，其中不乏香茅醇、香叶醇等数百种芳香物质和有机酸等护肤精华。具有抗氧化、保湿肌肤、抚平情绪等作用。

## DEHYDRATED ROSES 玫瑰干花

Our dehydrated roses are all made from crimson glory roses, which can lock in the active substances inside the flowers to the maximum extent. The anthocyanins are not oxidized, the content of aromatic substances is high, like sulfur or other additives are not added. Frequent consumption of tea brewed with rosa crimson can be beneficial for soothing the liver, relieving depression, relieving fatigue, balancing endocrine function, and promoting beauty and skincare.

我们的干花都是由墨红玫瑰制作而成，能最大限度地锁住花内的活性物质，原花青素不被氧化，芳香物质含量高，不添加硫等添加剂。经常饮用墨红玫瑰泡的茶，可以有利于疏肝解郁，消除疲劳，平衡内分泌，养颜护肤等等。

## ROSA RUGOSA FLOWER WATER 玫瑰细胞液

Rosa rugosa flower water is extracted by microwave vacuum low-temperature technology, which is a pure physical method without adding any materials, directly extracting and collecting cell fluid from rose buds. Rosa rugosa flower water can quickly replenish water, relieve skin redness and swelling after sun exposure, and alleviate skin stinging. It does not add any moisture, and all fluids are small molecule water, which is more easily absorbed by the skin. It is rich in amino acids and various trace elements required by the human body, anti fatigue, nourishing blood and qi, and has a better beauty effect.

玫瑰细胞液是微波真空低温技术提取的，是纯物理方式不加任何物料，直接将玫瑰花蕾中的细胞液提取收集而得来。玫瑰细胞水能快速补水、舒缓日晒后肌肤红肿、减轻肌肤刺痛，细胞液不添加任何水分，所有液体均为细胞液，是小分子水，更易被皮肤吸收，富含人体所需氨基酸及多种微量元素，抗疲劳，补血益气，养颜效果更佳。

## CITRONELLA OIL 香茅油

Citronella oil is a light yellow liquid obtained by steam distillation of the entire grass of Citronella, belonging to the Poaceae family and the genus Citronella. There is a strong and sweet aroma of mountain pepper, with a lemon aroma mixed with a earthy after taste. Citronella oil is widely used in pharmaceutical industry, food industry, daily chemical industry, essence industry. It has antibacterial and anti-inflammatory effects, insect repellent properties, relieves muscle pain and tension, and serves as a food seasoning.

香茅油是由香茅的全草经蒸汽蒸馏而得，淡黄色液体，属于禾本科香茅属。有浓郁的山椒香气，气味强劲，香甜，柠檬香混有泥土气息的后味。香茅油广泛用于：医药行业、食品工业、日用化学工业和香精工业。具有抗菌抗炎、驱虫防蚊、缓解肌肉疼痛和紧张、食品调味等功效。

## GERANIUM OIL 香叶油(天竺葵精油)

Geranium oil is a clear green-yellow to amber liquid with rose and mint aroma. It is widely used in blending essence of daily chemical products such as perfume, soap and cosmetics, as well as edible essence such as roses, strawberries, raspberries, grapes and cherries, and essence for tobacco and wine. Geranium oil has the function of purifying mucosal tissue, which can alleviate the discomfort of gastroenteritis, diuresis, and help detoxification. In addition, it can regulate hormones, strengthen the circulatory system, and help wound healing.

香叶油为绿黄色至琥珀色澄清液体，具玫瑰和薄荷样香气。广泛用于调配香水、香皂、化妆品等日化产品香精中，也可用于调配玫瑰、草莓、覆盆子、葡萄、樱桃等食用香精以及烟用、酒用香精中。天竺葵精油具有净化黏膜组织的功能，因此能减轻肠胃炎的不舒服，还能利尿、帮助排毒。此外，能调节荷尔蒙、强化循环系统，还能帮助伤口愈合。

# Main Products

## WINTERGREEN OIL 冬青油

Wintergreen oil is a colorless to light-yellow transparent liquid with a strong herbal aroma. It is a plant essential oil obtained by extracting and purifying fresh holly leaves. It can regulate and soothe the body and mind, nourish the skin, and has a significant analgesic effect. It is often used as an aroma enhancer for cavity medicine and paint in pharmaceutical preparations. It is also used in the blending of general essence, such as mistletoe, and other oral drugs, such as chewing gum and mouthwash. Methyl salicylate is also used as a solvent and intermediate in the manufacturing of insecticides, fungicides, fragrances, coatings, cosmetic inks, and fiber dyes.

冬青油是一种无色至淡黄色透明液体，有强烈的药草香气。它是人们收取新鲜的冬青叶子以后经过萃取提纯后得到的植物精油，它能调节舒缓身心，并能滋养肌肤，而且具有明显的止痛作用。常作为医药制剂中腔药与涂剂等的赋香剂，在一般香精中，例如榧树等香料的调合中也有应用，其他如口香糖、漱口水等口中含用药物也有应用。也可用作溶剂和中间体，用于制造杀虫剂、杀菌剂、香料、涂料、化妆品油墨及纤维助染剂等。

## EUCALYPTUS OIL 桉叶油

Eucalyptus oil has a cool and sharp eucalyptus aroma and a few camphor odor, with some medicinal gas, spicy mouth cool feeling, strong but not persistent aroma, there is a certain degree of mildew and antiseptic antiseptic effect. Its main component is citronellal, followed by taurine, which is widely used in the production of various spices, fragrances, soap, cosmetics, and food. Eucalyptus globulus oil can resist tuberculosis bacteria and can be used as an inhaler for respiratory diseases, treating skin diseases, and more.

桉叶油具有清凉尖锐的桉树香气和少量樟脑味，具有一定的药用气、辛辣口爽感，香气强烈但不持久，有一定的防霉防腐作用。它的主要成分是香茅醛，其次是牛磺酸，广泛用于生产各种香料、香料、肥皂、化妆品和食品。蓝桉油更能抗结核杆菌，可作为吸入剂用于呼吸系统疾病，治疗皮肤病等。
