We provide fresh, pure and high quality products

BIKA is committed to providing happy snacks for every special moment in life.

The history of BIKA began in 1979 when we manufactured, for the first time, compressed tapioca chips in our small factory. In 1995, BIKA becomes one of the favorite snacks food producers in Malaysia. For over 30 years, we deliver the world its dearly loved snacks, including Tapioca Chips, Seafood Crackers, Prawn Crackers, Chocolate-cream- filled Wafer, Non-GMO Cheese Corn Sticks, Candies and many more!

We have strong commitment to nutrition, quality and food safety. We are passionate about ethically sourcing the finest materials and producing them with great care. All BIKA products are produced in our HACCP complied facility, which are also HALAL certified and are safe to be consumed by Muslim.

Innovation is at the heart of everything we do. It is the driving force of our delicious products varieties and inspiration behind our environmentally-friendly process. As a food company, we at BIKA know that ensuring a sufficient supply of food for the world's growing population needs the well-organized use of natural resources. In fact, our business depends on sustainable supplies of water, energy and agricultural crops. We are dedicated to reducing our company's impact on the environment and working with others to find solutions to global food challenges.

We excel for improvement in our products and processes with the goal of providing great-tasting products that bring joy and happiness. We believe together, we can create value and make a difference.

Company Vision

Provide happy snacks for every special moment in life.

Company Mission

Our mission is to provide safe and quality snacks that bring happiness to the world. We believe it is important to keep our customers happy. We offer quality snacks at lower cost, and will accept any unsatisfactory return.

Our company will make a profit by generating sales. It will provide job satisfaction and fair compensation to its employees and its owners. We maintain a dynamic and productive work environment which respects hard work and dedication to job.

Who we are?

We are serious people who are just so crazy about munching and snacking. Snack producing, like most cooking, is based on scientific principles of heat and chemistry. Our team are passionate confectioners that are inspired by innovations and carefully trained to bring the world its favourite snacks!

Precision

It is vital not to miss a single step in overall processing. Our quality department stress on every quality control point, which includes inspection on every batch of products from raw materials to finished goods. We are actively involved in research & development to improve current products and also to develop new products to better reflect market trends and demand.

Your Concern

We understand that hygiene and food safety is very important to you. Therefore it is what we care most in our production processes.

Freshness

We pack every quality assured pieces in time to ensure the freshness when you take the first bite.

Our Professional Team

Besides professional service, we also cater to you our effective sales and marketing solution, tailor to suit your needs. After all, we do have over 30 years worth of experience in delivering to different markets across four continents of the world. Talk to us today and we will be more than happy to contribute to your success.

Our Workplace

- Our customers demand excellent service in addition to high-quality food, and that is where our employees come in. We think we have the best employees in the business.
- Our employees are still our most important resource. Our success now and in the future depends on them.

Imagine, if you can taste happiness...

We, human, are programmed to enjoy eating palatable substances, and our brains tell us to seek them out! The combination of brain chemicals dopamine and opioids associates snacking with pleasure and happiness. And that is the reason of the existence of BIKA! We are here to make consumers happy, satisfied and overwhelmed with excitement through the taste of our products.

Junk Food?

Ouch~ It hurts everytime when we were being called "junk". Junk food normally refers to food that is high in calories and low in nutrients. It's been linked to obesity and nutrient deficiencies. And we want to make a note here: We Are Snacks!!

A snack is a portion of food smaller than a regular meal, generally eaten between meals. Snacking does not pose any immediate health concerns and is generally safe when integrated into a well balanced diet. That is the reason we make our snacks into right serving size to encourage moderate eating.

For Goodness Sake

Is low fat and low sugar chemical food "healthier"? Don't you think "low-calorie" chocolate sounds ridiculous? We do not believe in deceptive labeling and weird chemicals. Avoiding snacks is not the way of eating and living healthily. If you want to be slim, or simply bright and healthy, enjoy good, honest food in moderation. Eat your proper breakfast, lunch and dinner daily. Be snack smart; enjoy your favourite treat as part of a balanced life style and within your daily energy needs!
