

WHY WE MATTER

RESPONSIBILITY

All manufacturers have a responsibility towards the consumers of their products. This entails more than just "Food Safety".

Like everyone of us has a responsibility to live more sustainably, food producers have an equal responsibility to make food healthier and more nourishing.

SUSTAINABILITY

95% of our Compass tin is plastic free. In the past two years we eliminated our use of plastic up to 70% and exchanged it, where possible, with sustainable alternative materials.

Our tin-plate tin is endlessly recyclable and in Germany tin-plate has a recycling rate of over 97%.

THE RIGHT INGREDIENTS

1

We use only 100% natural essential oil

2

We use only natural flavours, aromas and colours

3

We use Xylitol for improved mouth hygiene and dental health

4

We don't use any harmful sweeteners like Aspartame or AcesulfameK

WHY US?

Powermints relentlessly strives to produce better products for the consumer by continuously using the best quality raw ingredients and implementing the highest standards for food safety.

WHY YOU?

Because we care about you!

All you need is to

REDIRECT YOUR MIND
