WHAT IS DOFT

Over 13 years of success in franchising, we see the opportunity in the world market to launch our waffle into the global as the main goal of our company. Through the years of business, many of our customers wonder whether our waffle could be kept overnight or not. "DOFT" was created as a frozen-baked waffle which maintains the quality and signature of our waffle as baked freshly from the oven by 1-easy-step preparation.

DOFT PRODUCT

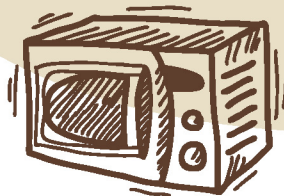

DOFT is a Belgian-style waffle made from fresh finest ingredients which create unimitated taste, smell and texture. We currently have 2 menus; original and chocolate stuffed. Even DOFT is a frozen product, the qualification of taste, smell, texture and freshness still remain as it was baked from the oven. Besides, DOFT can store in the -18c freezer with 12 months shelf-life which you can easily have a delicious waffle any time at your own place.

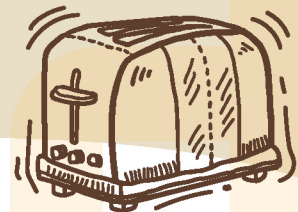

HOW TO RE-HEAT

Put in the oven
180°C for 5 - 8 min.

Microwave medium heat for 20 seconds.

Place in medium heat toaster until turning brown

OUR GOAL

We aim to send our waffles to all consumers in the global with the only concept idea which is to give the deliciousness through our diverse sense of waffle to generate happiness for every each consumer.
