Authentic Dairy Products

Dairy production is a day-to-day, continuous work, but it is also team-work, where we all work together, each one at their post, to create high quality products.

Produits laitiers authentiques

La production laitière est un travail quotidien, incessant, mais surtout un travail d'équipe, où nous travaillons tous ensemble et chacun de sa poste, afin de créer des produits de qualité.

Ursprüngliche Milchprodukte

Die Milchproduktion ist eine tägliche und ununterbrochene Tätigkeit, die jede Menge Teamarbeit erfordert, bei der wir alle und jeder aus seiner Position heraus zusammenarbeiten, um unser gemeinsames Ziel, Produkte von höchster Qualität, zu erreichen.

Prodotti lattiero-caseari autentici

La produzione lattiero-casearia è un lavoro quotidiano e continuo, ma è soprattutto un lavoro a livello di squadra, in cui tutti noi, ciascuno dal proprio posto di lavoro, collaboriamo per creare prodotti di qualità.

Crop production

In the plains of Kato Apostoloi, we cultivate pure feed (hard and soft wheat, oats, barley, vetch, medick, cardoon and faba beans), ensuring:

- Environmental protection
- Rational use of natural resources
- Production of high quality agricultural products.

Production végétale

Dans les plaines de Kato Apostoli, on nous cultivons des aliments pour animaux purs (blé tendre et tendre, avoine, orge, vesce, luzerne, artichaut sauvage et fourrage), en garantissant:

- Protection de l' environnement
- Utilisation rationnelle des ressources naturelles
- Production de produits agricoles de haute qualité.

Pflanzenanbau

In der Ebene von Kato Apostoloi bauen wir reinstes Viehfutter an (Hart- und Weichweizen, Hafer, Gerste, Wicke, Luzerne, Wilde Artischocken und Futterbohnen), um die folgenden Punkte zu garantieren:

- Umweltschutz
- Nachhaltige Nutzung natürlicher Rohstoffe
- Herstellung hochwertiger landwirtschaftlicher Produkte.

Produzione agricola

Nella pianura di Kato Apostoli coltiviamo mangimi genuini (grano tenero e duro, avena, orzo, vecchia, erba medica, cardo e fava per alimentazione animale), garantendo così:

- protezione dell'ambiente
- utilizzo razionale delle risorse naturali
- produzione di prodotti agricoli di elevata qualità.
