

Made in Spain, home of almond drinks

**Eco mil**

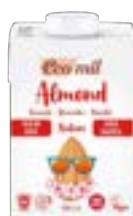

Premium Organic  
Almond drinks made  
where almonds are  
actually grown

Ecomil production facilities are located on the East coast of Spain, between the regions of Tarragona and Murcia, in the heart of the Mediterranean. These are privileged areas to grow almond trees. Ecomil almond drinks are exclusively made with 100% Spanish almonds, including the Marcona (the queen of almonds), Largueta and Comunas varieties.

# Essentials for all good kitchens!

**Eco mil**

**Cuisine**

A unique range of organic plant-based alternatives to single cream and sauces.

Our Ecomil Cuisines have creamy textures and unique tastes. Ideal to make warm sauces by deglazing the pan and do not curdle when cooked and stands when adding acid ingredients (lemon, wine, mustard) in recipes. They have a fast-cooking time and make homogeneous and smooth sauces. Try them also in your soups, gratins, vegetables, pasta and dishes, pastries, desserts, smoothies as well as in tea or coffee.
