

R. MONKHORN FROZEN FOOD CO., LTD.

R.Monkhorn Frozen Food Co., Ltd is tuna processing company. We were established in 2005. The factory is located in Samut Sakhon area. R. Monkhorn Frozen Food is a family-owned company, which has over 10 years in seafood processing.

The company started its business processing tuna loin for domestic market but over the years we continued to grow and expanded into a wide variety of product range including tuna loin, canned tuna and value-added products.

There are total of 500 employees with production site of 16,000 SQM. Our production facility is equipped with the most advance manufacturing technologies to ensure top quality products. We supply our product to global market, our main markets are Middle East, Africa, Asia and other markets all over the world.

At present, R.Monkhorn Frozen Food Co., Ltd owns extensive range of products that can serve different need of our customers.

- **Tuna loins**

We offer tuna loins that produced according to strict quality control guidelines, which help to ensure that there will be no biological and chemical contamination on the end products. The product specification can be adjusted to meet customer demand and specific requirement.

- **Canned tuna**

We provide canned tuna in different packing styles, size and in variety of media for selection (i.e. Soya Bean oil, Brine, Spring water, Tomato sauce and various sauces as per customer requirement).

- **Value-added**

We offer value-added products that crafted with care and tailor to customers' needs. We have basic recipes in our portfolio. However, we can develop customers' own flavor upon request. We also continue to be

innovative through new production technologies in order to respond to changing customer trends.

Quality Standard

Our company strives to produce and deliver high quality & affordable products to our customers. We focus on sourcing premium quality ingredients and continuously improve & develop manufacturing process to achieve high level of customer satisfaction. Our quality control goes beyond just production process; we also apply stringent control to every stage from research & development, packaging, documentation and shipment so that the customers can be assured of the highest quality products.

We guarantee sustainable food safety and quality performance through quality management system and certification.

With our strong determination and special care in all aspects of our business, we adhere to policy of business's growth on the path of sustainability and quality. We committed on producing high quality product while caring for society and environment. Our company set our sustainability policy covering 3 key areas: responsible sourcing, environmental protection & fair labour practices.

- **Responsible sourcing**

At R. Monkhorn, we emphasize responsible sourcing. Our company works closely with our suppliers to ensure raw material are source responsibly and environmentally sound. We encourage our suppliers to comply with our supply chain code of conduct that covers ethically sourced products, business ethics & environmental management programs. So customers can be assure that our tuna fish and other ingredients are from well managed and sustainable sources.

- **Environmental Conscience**

We care deeply about environment. We understand that our activities affect the environment and the communities in which we operate. It has become our company's culture that all employees have to work toward our

environmental goals by control and reduce pollution impacts with air, water and other natural resources.

- **Fair Labour Practices**

We value our workers and strongly committed to uphold the human rights of the workers. We also commit to a workforce free of harassment and unlawful discrimination. We place very high importance in treating our employees fairly and comply with local employment laws.
