About Us

Royal Future Company Ltd. Emerged to deliver absolute fresh & frozen seafood from around the globe to bring the taste of the sea to the HoReCa Channels in the Kingdom of Saudi Arabia. Established in 2015, we started supplying quality seafood to organizations which went on to successfully develop into an entire fish processing facility over the years.

Our primary focus is to retain the freshness of the sea products that reach our final customers. We have state-of-the-art warehouse with facilities that suit the product and create longevity for its freshness. Our extra cautious staff are well trained to take extreme care in dealing with the seafood and strict precaution is followed to keep the place hygienic and clean at all times.

A vibrant red fish, possibly a sea bream, is captured in mid-leap, its body arched and mouth open as if about to catch a bubble. The fish is surrounded by a dynamic splash of water, with several large, clear droplets and a trail of smaller bubbles trailing behind it. The background is a clean, white gradient that transitions into a light blue at the bottom, where the text is located.

We aspire to
deliver the **unique**
taste of the sea.

Our Vision

Our Vision is to become the best seafood supplier across the globe. We want our clientele, efficiency and hard work to be recognized by people all over the world. We believe that we are already in it's process, but also realize that we need support from all to reach where we want to be. We want to constantly deliver best quality seafood products, cleaned and retained with the best possible methods. We hence look at only catering to the people who seek the best product, as that would always help our reputation and standards spiral upward.

Our Mission

We have set ourselves to deliver only the finest possible products with absolute refines and upgrade quality. We focus on delivering the best seafood to our customers and clientele, with astounding quality and to their absolute satisfaction.

We focus on
delivering the
best seafood to
our customers.

Processing

Processing and Freezing methodologies are different for each seafood items. Preserving the taste and nutritional value of the seafood is the major focus behind royal future company. We mean to convey the most elevated conceivable advantage with unrivaled quality, and to give safe food to all shoppers in an effective and capable manner.

Our well trained staff takes necessary precautions in handling seafood and strict measures are followed to keep the premises hygienic. We do this to fulfill our commitment till to deliver the best products to our client. Our unique set of customer groups support and help us to understand their preference and new demands. This will enable ourselves to streamline it's current operation with a lot of satisfied clients while at the same time opening up new and exciting opportunities.

Our Facilities

Committed and driven by quality and safety, seafood products are stored in our HACCP Certified cold storages which are at par with the most advanced facilities available in this industry. Our products are delivered in it's finest forms.

We are facilitated with 1000MT capacity cold storages and custom made freezer vehicles. Three branches around the Kingdom of Saudi Arabia to cover high profile customers all over in KSA.

Our Strength

Our Strength lies in bringing the legendary sea food varieties to your door through a well coordinated and connected team, outstanding infrastructure for processing and frozen storage. All the products provided by our company meet the highest standards that you, our customer deserve.
