

# Ontario Corn Fed Beef

*naturally great tasting*

The Ontario Corn Fed Beef quality assurance protocols and nutritionally balanced corn based feeding program ensure naturally great tasting beef from the province of Ontario.

## OCFB Registered Producers

Ontario Corn Fed Beef is produced from cattle fed on registered family farms located in Ontario.

## Feeding Protocols

We use a defined feeding protocol with a nutritionally balanced 80% corn-based finishing ration for a minimum of 100 days.

## OCFB Quality Assurance Program

Our Quality Assurance Program ensures that our producers follow good production practices (GPPs) that deliver high quality beef, every time.

## High-Quality Corn Fed Beef

When it comes to producing great tasting beef, a diet that consists mainly of corn makes all the difference. It's what gives Ontario Corn Fed Beef its rich full flavor.

**ST. HELEN'S MEAT  
PACKERS LIMITED**

Ontario Corn Fed Beef and St. Helen's share the vision of a recognized high quality brand of Ontario beef produced in accordance with defined production and quality standards.

St. Helen's is Certified Halal in accordance with Islamic Law and under the strict supervision of IFANCA (Islamic and Food Nutrition Council of America), including their Canadian division IFANCC (Islamic Food Nutrition Council of Canada).

## A Tradition of Customer Service

Our roots date back to the early 1950's and our philosophy is based on building strong relationships with our partners and customers.

## Our Beef Products

Sourced domestically from approved livestock suppliers, St. Helen's can custom select the cattle to match our customer needs.

## Food Safety Program

Our facilities are federally inspected; HACCP certified and maintain Global Food Safety Initiative (GFSI) certification under the Safe Quality Food (SQF) standard.

## Export and Distribution

Export sales are an important and growing part of our business. St. Helen's has a worldwide presence and offers a full range of services to our diverse customer base.
