NACHO CHEESE SAUCE

- 4 tsp butter
- 4 tsp flour
- 1 cup whole milk
- 1.5 cups cheese of your choice (preferably processed cheese)

- 1/4 tsp salt
- 1/4 tsp chilli powder
- 1/4 tsp black pepper powder
- 100 g Makino Nachos

1. Add butter and flour into a small pot. Heat and whisk the butter and flour together until they become bubbly and foamy. Continue to cook and whisk the mixture for about 60 seconds.
2. Whisk the milk into the flour and butter mixture. Turn the heat up slightly and allow the milk to come to a simmer while whisking. When it reaches a simmer, the mixture will thicken. Once it's thick enough to coat a spoon, turn off the heat.
3. Stir in the shredded cheese, one handful at a time, until melted into the sauce. If needed, place the pot over a low flame to help the cheese melt. Do not overheat the cheese sauce.
4. Once all the cheese is melted into the sauce, stir in the salt, chilli powder and black pepper. Taste and adjust the seasoning as needed. If the sauce becomes too thick, simply whisk in an additional splash of milk.
5. Once the sauce is ready, place it in a bowl and serve with your favourite Makino Nachos.
