

Press Release – Gulf 2024
GEORGIAN NECTAR

GEORGIAN NECTAR GETS WILD AT GULFOOD 2024

Showcasing an Impressive Assortment of 100% Wild Harvested Fruit Juices from Georgia

GN Wildly Delicious understands that fruits and vegetables left to grow and mature naturally can be deliciously transformed into intensely flavorful and nutritionally rich juices. That's why their highly acclaimed juices are made entirely from wild harvested fruits and vegetables, producing finished products that are full of flavor, nutrient rich and ideal for individuals maintaining healthy lifestyles.

Going one step further, Georgia possesses a variety of growing regions that are environmentally pristine and remarkably productive. In this regard, the fruits and vegetables that Georgia Nectar collects have thrived under these ideal, naturally occurring conditions, developing special flavor and nutritional qualities that can only be achieved in the wild.

While everything produced by GN Wildly Delicious is naturally flavorful, low in calories and undeniably healthy, all of the fruits and vegetables they use are 100% Georgia-grown, harvested at the peak of season, freshly squeezed, pasteurized and bottled with no artificial coloring, no artificial flavors, no preservatives and no GMOs.

SO MANY VARIETIES

While GN Wildly Delicious' 100% Wild Pomegranate juice is their most popular, they have a wide selection including blackberry, raspberry, cornelian cherry, strawberry, sour cherry, beetroot, barberry and blueberry juices to name just a few. They also have a noteworthy range of pomegranate juice blends that combine the slightly sweet, slightly tart and intensely red pomegranate juice with these varieties including 100% Wild Pomegranate and Blackberry Juice, 100% Wild Pomegranate and Blueberry Juice and 100% Wild Pomegranate and Cornelian Cherry Juice.

Understanding there may be specific flavor profiles, levels of sweetness or functional properties needed to satisfy specific preferences of customers around the world, Georgia Nectar makes its entire portfolio of 100% wild and 100% natural juices available for fully customized private label programs.

ABOUT GEORGIAN NECTAR
