

Supplying the World with Premium Quality Almonds

OUR PARTNERS

FERRERO

ABOUT COMPANY

We maintain some of the largest hazelnut and almond producing orchards in Georgia. Established in growing regions considered ideal for the cultivation of these varieties of nuts, the company maintains orchards in Samegrelo to the west and Kvemo Kartli and Mtskheta-Mtianeti to the east.

In total, the company operates 800 ha almond and 2,200 ha hazelnut orchards. The company also operates its own processing facilities, enabling strict quality controls from field to warehouse.

Relying on state-of-the-art agricultural technologies, Nuts Incorporated ensures reliable supplies of premium quality, export-ready almonds and hazelnuts that consistently meet demanding international standards.

Nuts Incorporated takes pride in its almond and hazelnut orchards as well as its processing facilities. Relying on advanced harvesting and post-harvest technologies, close monitoring of orchard growth, and seamless automation, the company maintains strict quality controls across every stage of operations. With state-of-the-art technologies, we have streamlined hulling, sorting, drying, crushing, milling, and grinding processes, allowing us to process an impressive 2 000 tons of almonds and more than 3 000 tons of hazelnuts annually.

From Our Orchards to You -
A Commitment to Quality

PRODUCTS

Almonds

VARIETIES: SUPERNOVA, LAUREN, AVIJOR

Whole Kernel

Sizing: 18/20, 20/22, 25/27, 27/30, 32/34, 36/40.
