EXPERTS BY TRADITION AND VOCATION

The love for the land becomes the path to the Olive University. Hundreds of years of tradition and experience endorse this institution, home of past and present olive masters, the guardians of an immense and millenary legacy. Since 1968, Maestros Aceituneros® pays tribute to all those people that every generation puts on the table the best olives and assorted pickles in the market.

Master recipes

that blaze a trail.
A great master is made, not born.
Study, trial and error, experience,
passion and many other ingredients
turn into recipes for the most
demanding palates.
