**POLABSKÉ MLÉKÁRNY a.s.** based in the spa town of Poděbrady is the Czech dairy company focused on the production of curd cheese products and curd cheese specialities under the brand MILKO.

Every day we buy milk from Czech farmers and process it into our basic product – CURD CHEESE (QUARK).

Range of our products begins with the basic lines of traditional white curd cheese, which can be used in every kitchen during the preparation of a wide range of sweet and salty dishes.

Very popular lines of desserts are not only for customers who like eating sweet, but also for those who are focused on healthy food. Our curd cheese desserts include well-known brands such as TERMIX – the tradition of production in Poděbrady began in 1976, healthy snack for children TVAROHÁČEK, fruity curd cheese OVOFIT also suitable for diabetics, range of curd cheese MILKO with a variety of flavours and light curd cheese snack SVAČINKA with vegetable. Pursuing this line of health and deliciousness we launched on the market Greek yoghurt MILKO produced according to the traditional Greek way with removal part of whey. SUPER YOGHURT is the latest innovation in our production portfolio – thick and creamy yoghurt with a very high protein content, made without any added substances and additives.

POLABSKÉ MLÉKÁRNY a.s. also produces organic food. The most successful product from our organic production is MATYLDA – bio curd cheese with yoghurt which is the first Czech dairy bio product intended primarily for children. It has been the best selling dairy bio product in the Czech Republic and the brand Matylda was later enriched with bio cheese for children – slices and cheese sticks. The other special products representing organic line are Bio natural curds, Bio butter, Bio sour cream, Bio Mandava fresh cheese and other special cheese.

The cheese (semi-hard cheese, steamed cheese, fresh cheese) are produced in a specialised cheese plant of POLABSKÉ MLÉKÁRNY a.s. located in the little sub mountainous town Varnsdorf.

Basic products (curd cheese, sour cream, whipping cream) are produced also in high-volume catering pack – buckets and containers.

For more information about our company please visit our website [www.milko.cz](http://www.milko.cz).
