

CUTTING AND PACKAGING CHEESE IS OUR WORLD.

Adding value is our passion.

FRISCHPACK
The cheese appetite experts®

A REAL PASSION FOR CHEESE.

We are the cheese appetite experts.

As a manufacturer-independent cheese processing company, we place the highest demands on our cutting and packaging technology. Our state-of-the-art technology provides you with a comprehensive range of possibilities with maximum efficiency. As a reliable business partner, our top priority is our customers' satisfaction and success.

Yes, we may call ourselves the cheese appetite experts, but our passion for the world of cheese is not limited to standards alone. In addition to presentation, diversity and innovation are also appetizing success factors here.

For us, the development and early implementation of customer-specific solutions are just as important as a deep understanding of all sectors, markets, trends and brands that are relevant to cheese. This long-standing experience is reflected in our intensive consulting services and the added value we create.

Naturally, the corporate maxims that we live by every day also include economically and socially sustainable behaviour as well as a strong sense of environmental awareness.

RELIABLE GROWTH IS THE BEST FOUNDATION FOR SUCCESS.

Frischpack has proved this for decades.

Frischpack has over 45 years of cheese expertise and continuous modernization – keys to success that have long-lasting benefits for our customers.

The start of a success story: Frischpack is founded in Berganger in the district of Ebersberg, Germany.

The company sets its future course: New build at the company's current site in Mailling near Schönau in the district of Rosenheim.

Bigger, higher, further: A new packing and finished-product storage area is put into operation.

Four decades of progress: Frischpack celebrates its 40th anniversary.

Start into the Industry 4.0 era: Frischpack demonstrates its technological leadership with its new machine data acquisition system (MDA).

Distinguished as a top innovator: New ideas are essential for a successful and, above all, sustainable perspective for the future.

Perfection right down to the very last gramme: Installation of the first special weighing system for grated cheese.

Expansion across the board: The first line for deep-drawn packaging for cheese slices is integrated in the production process.

Investment in the future: Company expansion covering double the surface area with new production, storage and social buildings.

Naturally sustainable: Certification of our energy and environmental management system in accordance with German standards ISO 14001 and ISO 50001.

Frischpack on growth course: From now on Baackes & Heimes GmbH from Viersen completes the portfolio of the cheese appetite experts.

Frischpack is now climate-neutral: We are minimizing our environmental impact thanks to a 50 % reduction in the company's carbon footprint since 2013 (CO₂ in kg) and with certified climate protection projects.

COMPETENT. CREATIVE. INNOVATIVE.

The Frischpack Group: The power of innovation for cheese.

The Frischpack Group is a family business with two company locations – Frischpack GmbH in Mailling and Baackes & Heimes GmbH in Viersen. Our distinct passion for cheese and sound knowledge of the relevant industries provide the basis for our strength.

Frischpack processes and packages cheese for industry and food-service sector customers. We also work as an efficient co-packer for leading national and international cheese dairies and creameries. Here, technological leadership is a fundamental success factor in many key areas.

Baackes & Heimes cuts an impressive figure with over 70 years of accumulated food retail industry expertise. Processing, packaging, sourcing and logistics are accompanied by the development of creative, customised concepts, products and product ranges for cheese sold in food retail outlets and discount supermarkets.

And so Frischpack, as a company with a focus on technology, and Baackes & Heimes, as a creative workshop for cheese concepts, came together to create a unique formula for success.

BAACKES & HEIMES: Our strong business partner

**FOOD RETAIL/
DISCOUNT SUPER-
MARKETS**
Creative concepts and a variety of processing and packaging options that are consistent with your own brand and product range structure.

FRESH IDEAS FOR VARIETY, SHAPES AND FUNCTIONS.

At Frischpack, you can find the perfect combination for success.

THE TRIPLE JUMP – THREE FACTORS FOR TAKING THE LEAD: KNOW-HOW, TECHNOLOGY AND QUALITY.

A perfect solution is often defined by many factors. Frischpack is the right company to contact when it comes to in-depth knowledge, state-of-the-art technology and sustainability aspects for processing and packaging cheese.

We offer additional services – test productions, an integration of IT systems to optimize processes and Europe-wide logistics, among others. Our customers can thus concentrate on their core business, remain flexible and save on investment costs.

The highest international standards of quality, production and hygiene have always been a matter of course for us. Our own laboratory, external controls and regular audits ensure that these advantages remain constant for our customers.

Our products

The cheese market is multi-faceted and constantly changing. This requires flexibility, speed, good intuition and, above all, know-how. With Frischpack, you can be fully prepared to face these challenges. We offer you a wide assortment of cheese varieties which we process – if required – into needs-based shapes and formats.

Naturally, our assortment also includes organic, VLOG or vegan-certified products. Moreover, you can rely on us to provide you with a wide range of customised solutions.

THE MOMENT WHEN A COMMON GOAL UNITES EVERYONE.

Our working environment is packed with excitement.

When you work at Frischpack, you experience exciting moments. We send the best processed and packaged cheese from Mailling to all over the world. Every day is filled with something new which makes us proud and strengthens our team spirit. For moments that unite us.

We are the cheese appetite experts. For us, every gramme counts: for well-known brands, wholesale and retail industries, catering and further processing – for the food we see every day. That is why we attach great importance to

commitment and initiative, and to an independent and autonomous work ethic. For moments when you realize that the dynamic here is shaped by real dedicated individuals. To turn our vision into reality, we invest in state-of-the-art technology. And in the future of our employees. After all, strong teams do their best every day at Frischpack. In a trusting and cooperative partnership. Day after day, we experience exciting moments that fill us with pride. Moments that unite. And make our work environment special.

A CLIMATE-NEUTRAL FRISCHPACK SINCE 2020.

Because we are driven by sustainable economic activity.

Sustainability is an integral part of our mission statement. For us, sustainability means being ecologically aware in our actions, while also efficiently economizing for our customers' benefit so that we can generate true additional value for them. Combined with our high-quality standards and the power of innovation, we are driven by a strict sense of social commitment, and a responsibility to our environment and employees.

This includes our certified energy and environment management system. This system has helped us to reduce our corporate carbon footprint by over 50 % since 2013 (CO₂ in kg) and our remaining CO₂ emissions have been offset by certified climate-protection projects.

The result: Frischpack is climate-neutral!

With our occupational health and safety management system, we ensure that our employees can go about their work in an environment that is as safe as can be and in line with the newest findings.

That is why we are consistently investing in the optimisation of our processes, minimizing the environmental impact of our products and respecting ecological and social responsibility when choosing our suppliers.

With Frischpack, you have a partner at your side whose actions today will help create a tomorrow that is worth living.

Because a sustainable future also requires innovative commitment.

OUR CERTIFIED MANAGEMENT SYSTEMS

- Environment: ISO 14001:2015
- Energy: ISO 50001:2018
- Occupational health and safety: ISO 45001:2018
