## ABOUT US

Sultan Natural Spring Water is one of the first water filling plants in Turkey, founded by Inegol Farm Village Cooperative in 1975; In 2002, Sedef Gıda Maddeleri Pazarlama ve Ticaret LTD. ŞTİ. joined the organization.

At the end of 2018, Sedef Gıda Maddeler Pazarlama ve Ticaret LTD. Purchased the Laçın Mineral Water Factory in Eskişehir. ŞTİ.

It has strengthened its position in the sector with its large investments in the beverage sector. Growing and developing day by day, Sultan Natural Spring Water has become one of the strongest players in the sector by expanding its product portfolio with soft drinks and rich mineral products in 2020, and in the 45th year of its establishment, it has decided to continue its existence and production under the name of Sultan Beverage Group.

Since the first day of its establishment, Sultan Su; It is produced by preserving the purity and naturalness of the source with the natural spring water flowing from the source at the summits of Uludağ, 2070 meters away from the agricultural lands and settlements where there is heavy snowfall.

Sultan Beverage Group offered by the new gaseous with mineral water to market as well as natural spring water, as well as the plain and fruity mineral waters has expanded its product range with a first traditional mineral refreshing sherbet in Turkey.

The Sultan Beverage Group produces quality; It continues its activities with firm steps in both domestic and foreign markets in order to offer healthy and delicious products to its consumers.

Sultan Beverage Group, which continues its activities in a closed area of 35,000 m<sup>2</sup> on a 60,000 m<sup>2</sup> land, is 100% Turkish capital and is one of the most established brands in the sector, to expand its distribution network with its experience of 45 years, strong vision, sustainable and innovative approach. and continues to work to increase production capacity.

Sultan Beverage Group is respectful to the society, environment and nature; As a consumer-oriented company that attaches importance to human resources, it continues its production and investments with the aim of satisfying its consumers with rich mineral, delicious, natural and healthy beverages.

# OUR FACTORIES

## NATURAL SPRING WATER FACTORY İnegöl/BURSA

Sultan Natural Spring Water Plant, located in İnegöl / Bursa. With its 60,000 m<sup>2</sup> of land, with 35,000 m<sup>2</sup> closed area, Sultan is the One of Turkey's first water filling factory. Established by İnegöl Farm Village Cooperative in 1975.

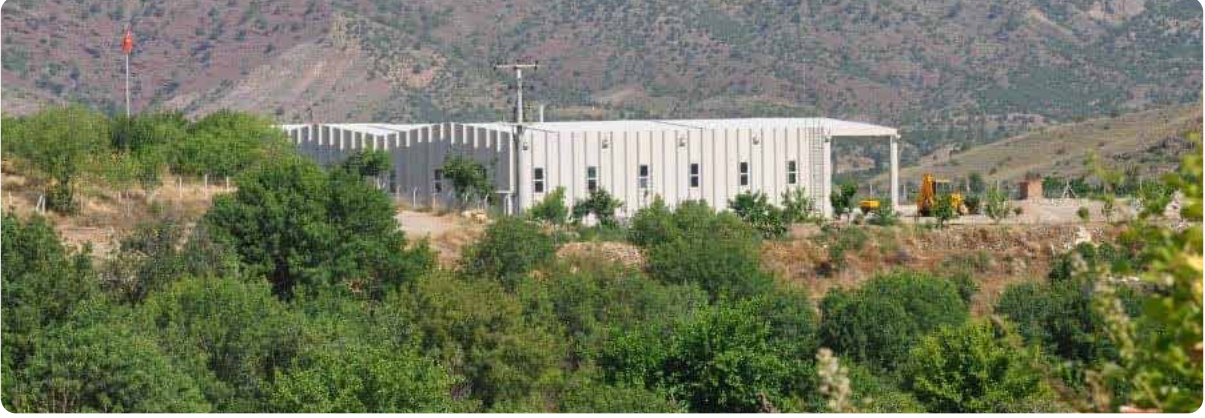

The plant acquired by Sedef Gıda Maddeleri Pazarlama ve Ticaret LTD. ŞTİ. at 2002, and by making new investments inside facility, it produces spring water with the latest technology machinery and equipment.

## OUR BRANDS

Sultan Natural Spring Water has decided to continue its presence in the sector in 2020 under the name of Sultan Beverage Group.

Sultan Beverage Group offers the new gaseous with mineral water products on the market outside, plain and mineral waters, as well as a first in Turkey has expanded its product range with refreshing sherbet made by mineral water.

It continues to operate both in the domestic and foreign markets in order to present the healthy and delicious products it produces to the taste of its consumers.

Lacın Mineral Beverage Group, which maintains its existence in the sector with the slogan of "Age-old Taste", continues to produce natural rich mineral waters containing rich mineral and fruit flavors, as well as fruit-flavored carbonated beverage categories.

Lacın" operating actively, creating value for the beverage industry in Turkey's domestic and foreign markets, preserves its place on the table of the consumer with the healthier products that are producing since long time.

## Uludağ/BURSA

Sultan Su, which is produced by using natural spring water, continues to produce healthy water from the first day by preserving the purity and naturalness of its source. The resources located in the foothills of Uludağ, where there is a lot of snow, are 2070 meters away from the agricultural lands and settlements in a natural environment.

The water coming out of its source is stored in a completely closed and hygienic environment in tanks prepared in accordance with the regulations of the Ministry of Health. Natural spring water, which is comfortable to drink and suitable for sodium diet, passed through graded filters and health tests in production facilities, is bottled in hygienic environments, fully automatic machines, without human touch.

## Laçın/ESKİŞEHİR

The outlet of laçın natural rich mineral water is in the Sündiken Mountains, in the forest area, right next to the stream bed in Göbet locality. There is a continuous flow at the outlet of the source and it has been coming to the earth continuously for centuries. There is no residential area or agricultural land in the immediate vicinity of the spring, it is located in a mountain-alone area. For these reasons, there are no factors that will interfere with the soil and affect the mineral values of mineral water. The nearest settlement is Lahin, where the factory is established, and is 5200 meters from the source. Its location at the point where the natural rich mineral water reaches the nature is at 540 altitude.
