

RAMROS TRADING COMPANY

## RAMROS TRADING COMPANY

RAMROS TRADING COMPANY is a Spanish company with more than 30 years of experience in international trade. Its exclusive dedication to this field has gradually enabled it to grow and consolidate its position in the sector.

Our Logistical center and offices are located in the economic district Gran Vía- L'Hospitalet. This strategic location, given their proximity to the port, Barcelona airport and the main land routes that link us with Europe, enables us to distribute quickly and effectively.

We process both bulk and packed honey under the brand names San Miguel and Sanamel for the end consumer at our Ramros-Hernando Hurtado facilities in Barbadillo del Mercado (Burgos).

All processes are carried out in the traditional way, maintaining all the honey's qualities, so that it reaches your home with all its aroma and purity intact.

## HONEY

### Lime honey

Dark green-black colour. Very viscose consistency, aroma and taste. Lime honey is characterised by its effect and stimulation of the digestive system; it is an effective pain killer.

### Acacia

A very clear honey, with a mild and delicate taste. It is known for its beneficial effects on the respiratory tract.

### Heather

A honey with an intense, aromatic, slightly bitter taste. It is brown in colour, with shiny reddish tones known for its high antioxidant content.

### Eucalyptus

Dark in colour and pleasantly intense in flavour. Analgesic effects on the respiratory tract are attributed to it.

### Albaida

From south-eastern Spain, this type of honey is very light, almost white, in colour; it has a light smell and pleasant taste.

### Mountain

Mountain honeys are thousand flowers honeys and include rosemary, eucalyptus, heather and chestnut. They are dark in colour and have a slightly fruity flavour. They are recommended for infections of the respiratory tract.

### Lavender

Clear and aromatic honey, with an intense flavour.

### Orange Blossom

A honey with a light taste and appetising taste. It maintains all the beneficial properties of the Orange Blossom. Relaxing effect.

### Lemon tree honey

Very aromatic taste. Bone and nail remineraliser, sedative.

### Thyme

An excellent aromatic honey that comes from the thyme plants that grow in the Mediterranean basin. Rich in antioxidants, it is known for its antiseptic properties. It soothes coughs and sore throats.

### Sunflower

A summer honey, golden in colour. It has a sweet taste, with a fresh and fruity palate.

### Forest Honey

Honeydew honey, with a dark colour and very rich in antioxidants. It comes mainly from the holm oak or oak tree.

### Rosemary

Is the typical honey of the Mediterranean area; it is dark in colour and almost white when it crystallises. It is recommended for liver, heartburn and stomach ulcers.

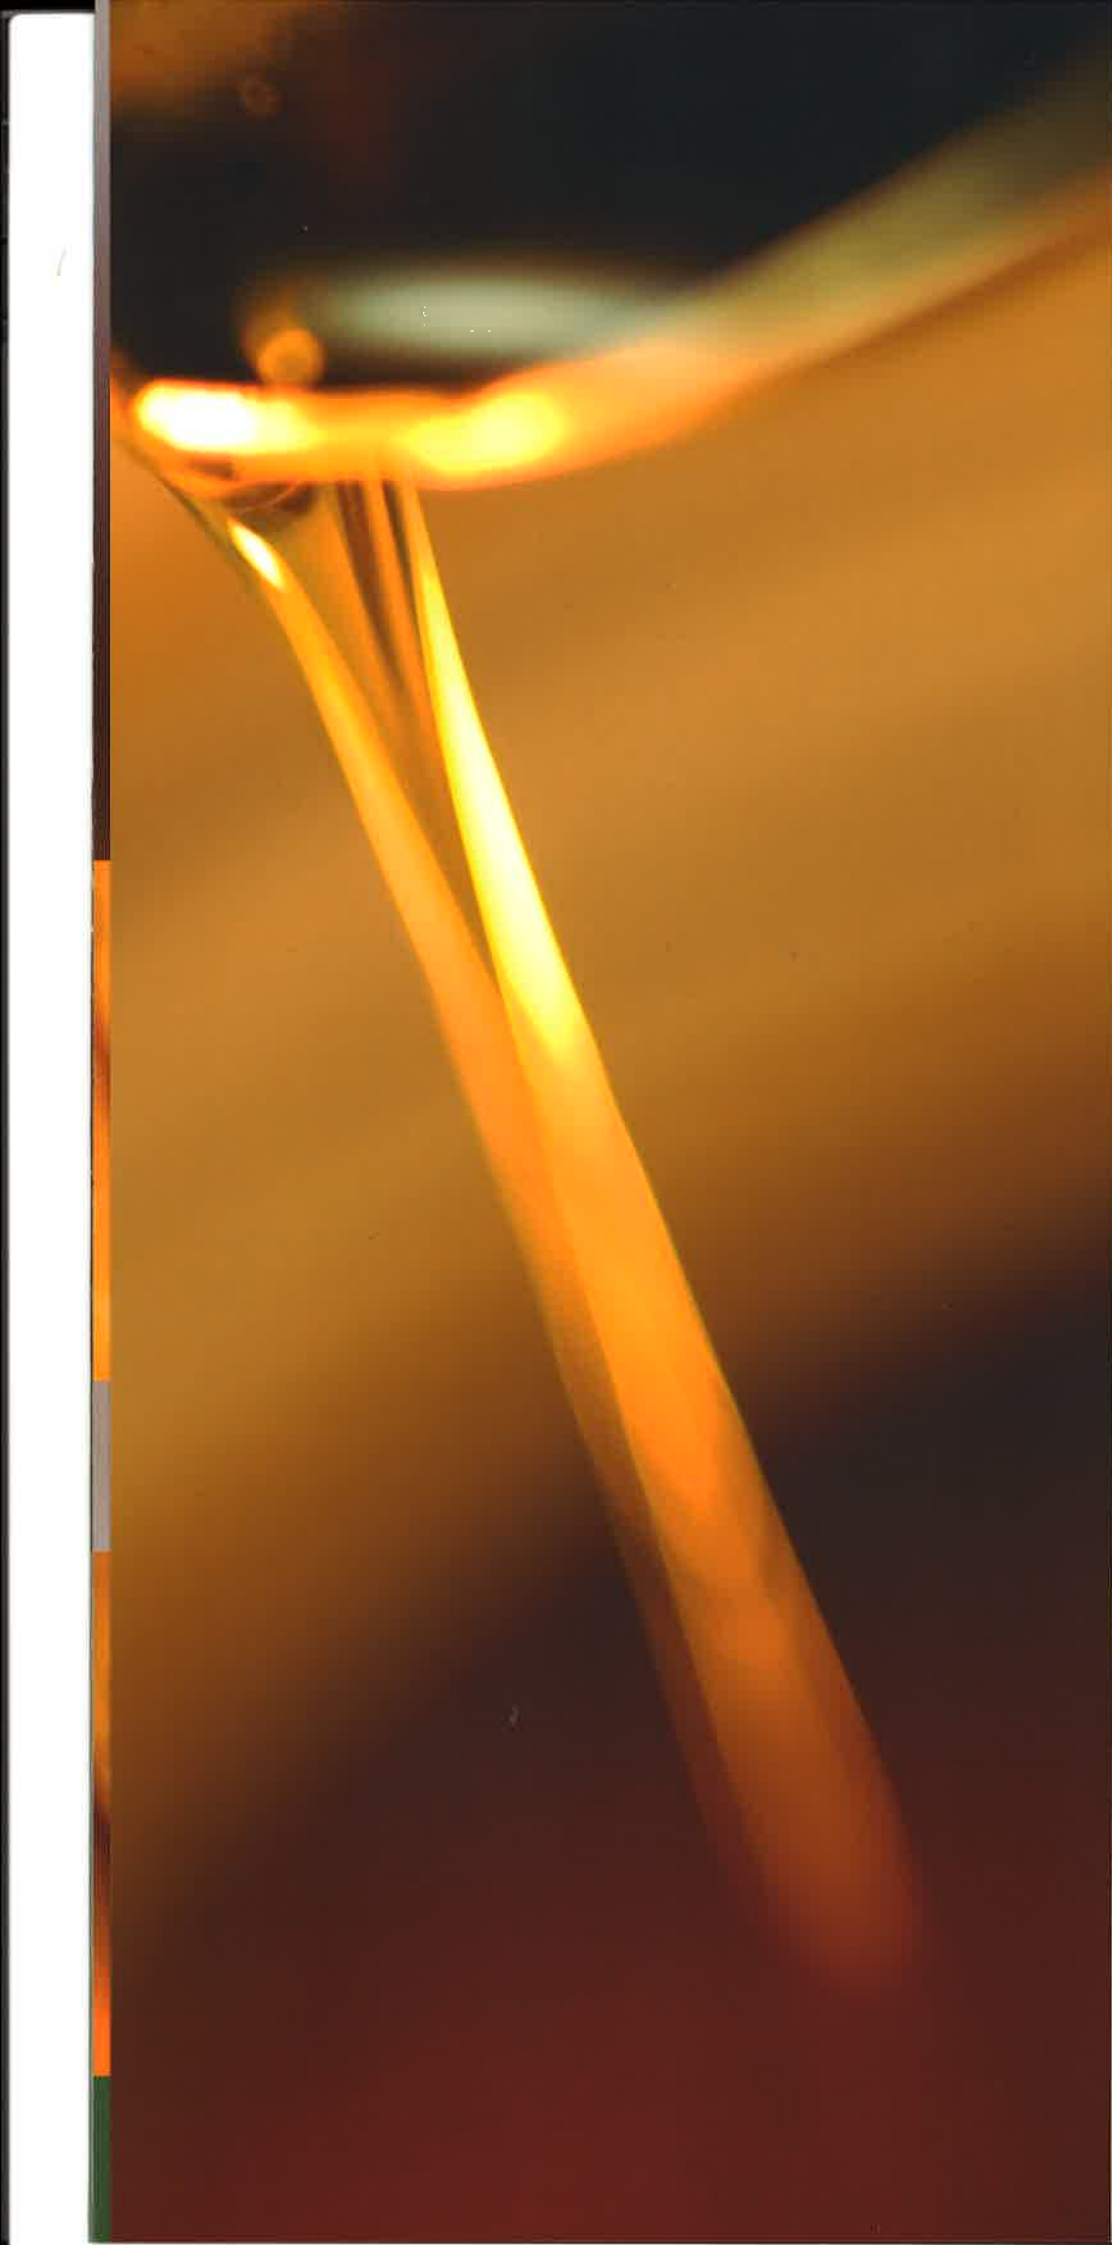

## B E E P O L L E N

Among the many products that bees provide us with, pollen is one of the most complete and energising. Bees extract pollen from flowers, make small balls of it and store it in their honeycombs, in small cells created especially for the purpose. The pollen is strengthened further with the nectar that they use to produce honey, which increases its nutritional properties and benefits for health.

We offer natural multicolour and single colour flower pollen in 50 Kg barrels and 25 Kg boxes.

We have recently made a considerable investment to equip our facilities with the most advanced technology in the honey packaging sector.

Our quality controls have been established on the basis of the international system of HACCP principles.

We have our own laboratory which guarantees that our products reflect current health regulations. We are positive about the future and our main aim is to gain customer loyalty through the quality that guarantees our honey, advanced technology and competitive prices.
