

INTRODUCTION

NONA's beginning is traced back as far as 1975. As a small trade company, we gradually grew to become a well-known food manufacturer by the year 1988. **NONA** is proud of its Halal accreditations to satisfy the increasing demand for Halal food products today.

Our research and development team is devoted to introducing traditional and conventional elements into local cuisines. Assorted goods, such as the popular Ketupat (rice cake), Palas and Lemang (glutinous rice cake), cooking condiments and a multitude of flour, desserts and beverage have enabled the company to become more visible in the consumer market. As part of its purpose and ambition, **NONA** strives to stand apart from its peers by bringing more Halal Asian flavours to the region and the rest of the globe.

Malaysia

Quality Food Product

High grade A1 rice
with no artificial
flavouring & MOH
approved HPDE bag

A staple rice dish in Malaysian festivals and is usually made with either rice or glutinous rice. Ketupat and Palas are traditionally simmered and wrapped in coconut leaves where the preparation may take hours. For Lemang, it is delicately roasted in a bamboo tube for 3-4 hours. Now, with innovative development, you can enjoy this aromatic dish in just 45 minutes. **NONA** currently offers Ketupat, Ketupat Palas, and Lemang which are made from carefully selected rice and packed with High-Density Polyethylene (HDPE) perforated food-grade plastic, that can withstand heat up to 106°C. Typically served with a rich peanut gravy or a hearty rendang/curry, it can also be used in other traditional dishes like Lontong, Soto, or even fried rice cakes.

COOKING NEEDS SOY SAUCE

Soy sauce has been used as a liquid condiment in most Asian cuisines for over 2500 years. **NONA**'s soy sauces are first-pressed sauces that are produced via artisanal fermentation from a paste of chosen soybeans, toasted grain, brine, and the *Aspergillus Oryzae* fungus. These ingredients bring out the refined soy sauce aftertaste. It is versatile for cooking, marinating, dipping or anything you can think of. **NONA** ensures that the intense umami level suits everyone's taste buds.

COOKING NEEDS SESAME OIL

Extraction of **NONA's** Sesame Oil is carried out at a delicate temperature and under stringent hygienic settings, where the roasted sesame seeds are exposed to high levels of pressure. As a result, the sesame oil is a transparent amber colour with a deep, appetising scent and an earthy, nutty aftertaste. Use **NONA's** sesame oil as a flavour enhancer or as a last finishing touch to your foods when cooking. It also keeps the rice from sticking to the pan, as an added benefit.
