

# ALUMINIUM CAPSULES

Torrié's 100% Aluminium Capsules offer a variety of excellence, comprised of 10 references, to suit different consumer profiles. Blends are carefully selected from arabica and robusta coffees which stand out for their different roast profiles and degrees of intensity. A unique range for real lovers of the Portuguese art of roasting.

and exuberance of the  
purest coffee beans.

**ETIÓPIA**  
Explore the unique  
taste of 100%  
Arabica coffee.

Free of components in other materials and with a design which offers the best extraction guarantee, the aluminium capsules option ensures hermetic sealing (protecting the coffee from oxidation) and heat resistance, essential for conservation, freshness of some flavours and extraction with abundant, persistent cream.

The Torrié 100% Aluminium Capsules range retains the intrinsic qualities of blends and origins, taking consumers on a sensual journey to unique regions worked to bring out the moderate/low acidity characteristic of Portuguese roasting style.
