

# THE NO. 1 FRESH NOODLE MANUFACTURER

Proudly made in Singapore

## About LG Foods

LG Foods, a brand by Leong Guan Food Manufacturer, is Singapore's **leading fresh noodle manufacturer**, specialising in fresh noodles and beancurd products.

Anchored in food science, the company has developed **export-ready long shelf-life fresh noodles** and beancurd without the use of preservatives.

The brand's current product range encompasses an array of options, including **fresh Singaporean noodles**, soy **beancurd products**, dumpling wrappers, and a diverse selection of **international noodles** like Japanese Ramen, Italian Pasta, and Hong Kong Style Wanton Mee. Additionally, they offer specialty noodles designed to accommodate various dietary needs, such as **high-fiber, low-GI, vegetarian, and gluten-free options**.

The brand's latest offerings include **ready-to-eat microwavable meals**, providing a swift dining solution, as well as **food kits** containing all the ingredients and instructions, facilitating the preparation of quality meals at home for consumers.

Proudly made in Singapore, LG Foods is a trusted partner in the local food service industry. The products can also be found in major supermarket chains locally.

LG Foods current export market includes **Southeast Asia, Mainland China, Australia, UK and the US**.

Adhere to strict guidelines set by the Singapore Food Agency to assure food safety.

Exercise strong raw material control to ensure reliable and safe ingredients used.
