

FOR IMPORT EXPORT AND COMMERCIAL AGENCIES

COMPANY

PROFILE

Table Of Content

Established in 1995, AM Group Misr emerged as a prominent trading company specializing in the distribution of various food brands within the Egyptian market.

A significant milestone was reached in 2000 when AM Group Misr successfully launched its own brands, Dolphin Tuna & Sardine, marking the beginning of a remarkable journey.

In 2008, AM Group Misr expanded its product portfolio by launching instant coffee products and secured the exclusive distribution rights for the esteemed Coffee Break Brand in Egypt.

AM Group Misr stands as a market leader in the tuna and sardine category in Egypt with a centralized warehouse encompassing an impressive 30,000 square meters and a fleet of 500 vans. The company efficiently supplies its extensive network of 27 branches all over Egypt with a dedicated workforce of 750 employees.

In a bold move, AM Group Misr has recently embarked on the construction of its first facility of a extruded snacks factory. The production is set to commence by the end of 2023, further expanding the company's product offerings and diversifying its presence in the Egyptian market.

Building upon the 20 years of success within Egypt, AM Group Misr took the step to expand globally with its renowned brands: Dolphin, Mix Mix, and MAZAQ (Tomato paste & Fresh and Frozen fruits and vegetables) in June 2023 this strategic expansion reflects the company's vision to become a leading recognizable brand in the food and beverage industry.

Our Mission

Fresh Fruits

Oranges

The most-popular variety today is the Valencia, a medium to large fruit with a smooth, finely-textured rind which is thin-skinned and harder to peel, Firm and heavy for their size, they are picked when fully ripe.

The bright orange fruit has virtually no seeds. These Valencia Oranges have excellent color and quality

This orange is excellent as a juice and eating fresh out of hand as well. this variety of oranges are a good source of vitamin C, fiber, and folate. They also contain antioxidants that help boost immunity.

Navel oranges are one of the most popular, fresh-eating varieties. Sweet and easy to peel

The navel oranges are the earliest maturing of orange varieties, producing the seedless fruit of larger size than most others, with deep orange easily peeled rinds and a sweet & pleasant flavor.

Navel oranges are seedless, and excellent for fresh eating but do not have good juicing characteristics.
