Rice Protein

Plant-based protein

Plant-based protein is becoming increasingly popular among health-conscious consumers looking for a nutritious and sustainable alternative to animal-derived protein sources. Our rice protein offers a complete amino acid profile necessary for muscle growth, recovery, and overall health. This plant-based option is an excellent choice for anyone looking to improve their health, reduce their environmental impact & an ideal option for people who follow a vegan or vegetarian diet. Additionally, it is free from common allergens like soy and dairy, making it a safe choice for people with allergies or intolerances. We can also offer it in a **hydrolysate form** to create a highly digestible and absorbable form of protein.

WHO WE ARE

Healthtech was established in 2014 with Product Innovation supported by Research & Development as the core of all activities

Developed products were focused on improving consumer's outcomes, from supportive and adjuvant therapies through providing safe, effective, scientifically proven results.

In 2019, innovative research and development efforts solidified the company's expansion with adding a commercial team that was able to bring to life some the company's products to the market

Mission

Our mission is to be a global leader in research, development and delivery of products that help improve our consumers' health and quality of life.
