

Our Products

Maintaining our customers' satisfaction, health and safety is our key focus. Our group uses the most up-to-date and state-of-the-art production technology and practices in our production cycles to ensure that the highest levels of food hygiene, safety and quality are supplied to our domestic and overseas customers worldwide.

Thai Hom Mali Rice

The famous land of the best quality "Hom Mali Rice" cultivation is situated in Northeastern part of Thailand (Isan region) where Eastern Rice Mill Co., Ltd. is located. Tanasan Rice Group has initiated the scheme to collaborate with local farmers especially in this area in order to achieve sustainable production of the highest quality and purity of "Hom Mali Rice" breed. Moreover, we are continuing to expand our market niche and seeking more demands from customers.

Thai White Rice

"White Rice" is grown in many parts of quality rice cultivation areas, especially in "Chai Nat Province" which is one of the most essential and famous lands of "White Rice". Tanasan Rice Group has sufficient capacity to produce various grades of "White Rice" throughout the year.

Thai Parboiled Rice

To produce this type of rice at best quality, we need to operate effectively step by step with special technique by modern technology mainly in TBS Rice Mill Co., Ltd. following by Tanasan Rice Co., Ltd. and Eastern Rice Mill Co., Ltd. Good uniformity of rice colour and appearance can be ensured by all identical production processes in each of our mills. Thus, you can be certain that all the rice purchased from us are in the same quality thoroughly.

Thai Pathumthani Fragrant Rice

Tanasan Rice Co., Ltd. and Samruampol999 (2 mills in our group) are located in "Chai Nat Province" which is one of the most important areas where "Pathumthani Rice" is cultivated and also situated in the center of Thailand. Therefore, the most abundant quality and quantity can be collected, milled and controlled by a group directly.

Thai Glutinous Rice

"Glutinous Rice" can be used not only in recipes, but also usually formed into many ingredients in commercial products. In Thailand, Northern and North-eastern Regions are the most important areas of growing "Glutinous Rice". Our group has been fortunate to have a large mill situated in the right location (TBS Rice Mill Co., Ltd. and Eastern Rice Mill Co., Ltd.) which allows us to produce and supply rice continuously throughout the year.

Our Products : House Brand

"AEROPLANE BRAND" is our house brand to take our sales and marketing to the next level. This will help to assert a strong presence in the world rice market arena.

"AEROPLANE BRAND", a house brand image to emphasize on our quality consciousness and efforts to better satisfy our customer's needs.

- Ensure Consistent Quality •
- Maintain Prompt Shipments •
- Offer Competitive Prices •

★ PRODUCTION CAPACITY OVER 12,000 MT/DAY ★

Production Plants & Machines

The strategic location of TANASAN RICE GROUP ensures effective transportation of harvested paddy from specially identified collection centers across many important paddy growing areas, thus reducing transit damage to the delicate grain of rice.

State-of-art processing plants for our rice production have effectively mechanized sophisticated processing procedures for different stages like temperature controlled drying, cleaning, polishing, parboiling, sorting and grading. Thanks to this the advance technology and machinery used, every stage that conforms to international standards and applicable guidelines of process control has been strictly followed to ensure uniformity of grains without destroying fragrance, aroma and basic quality of the grains. This quality standard can be supported by our certificate for GMP&HACCP (Good Manufacturing Practices and Hazard Analysis Critical Control Points). Moreover, impurities, irrespective sizes and low quality grains are mostly removed in different stages. The system is highly automated to avoid as much as possible human interaction throughout of process.

Progressively, our total production capacity of 12,000 MT per day gives us the competitive edge of uninterrupted production throughout the year, which enables us to receive the trust and long relationship from our loyal clients both domestically and internationally. Thus, the TANASAN RICE GROUP can be considered as one of the most strongest rice manufacturer in the Thailand as well as the most competitive supplier for various kinds of premium quality of rice.

About us

TANASAN RICE GROUP is a “family-owned” corporation comprising of 5 large Rice Mills, (I) Sanruampol 999 (2002), (II) TBS Rice Mill (2009), (III) Tanasan Rice (2012), (IV) Eastern Rice Mill (2013) and (V) Tanasan Marina (2016). We have established and specialized in the rice business for more than decades.

Each Mill & Production plant is geographically situated in the big Rice Cultivation areas of Thailand such as “Chai Nat Province”- one of the most significant rice origins, “Pichit Province” - one of the most productive rice farming areas in Thailand and “Isan” (North-eastern Region), the famous and largest available land dedicated for growing the best quality of “Thai Hom Mali Rice” in the world.

We are located in the best and largest area of quality rice cultivation in Thailand. We have adequate rice to continuously operate our production lines. Recently, TANASAN RICE GROUP is continuing to develop our plants for improving the rice quality and also the quantity. The most advanced, innovative and up-to-date technology of rice processing are used in our production lines. This enables our production plant to maintain its consistent level of quality and efficiency.

Besides, our group’s emphasis on quality we are constantly aware of the environmental factors that are directly linked to our production process. Hence we constantly monitor our processes to ensure that they have the least impact on the social and environmental aspects.

We thereby ensure that our finished goods will meet with customer satisfaction and approval whilst at the same time provide the best quality and safety, which has been proven by our group’s dedication in achieving the certification for GMP&HACCP (Good Manufacturing Practices and Hazard Analysis Critical Control Points).

Experience passed on from generation to generation, our group is fast becoming one of the leading rice manufacturers and exporters in Thailand. The main activity of our group is to mill and produce various varieties of Thai rice such as “Hom Mali Rice”, “Pathumthani Fragrant Rice”, “White Rice”, “Parboiled Rice” and “Glutinous Rice”. Providing varieties of rice product at best quality and most competitive-pricing, we have received trust and long impressive business relationship from many loyal domestic customers and worldwide.

TANASA RICE GROUP	LOCATION (THAILAND)	AREA (ACRES)	REGISTERED CAPITAL (THB)	PRODUCTION CAPACITY (MT/ Day)
Tanasan Rice	Chainat	150	1,000,000,000	4,000
	Pathum Thani	32		4,300
TBS Rice Mill	Pichit	280	500,000,000	2,000
Sanruampol 999	Chainat	28	100,000,000	500
Eastern Rice Mill	Kalasin	140	300,000,000	1,200

Our Strengths

- Purchase Rice from Farmers Directly
- Process Rice by Our Own Mills
- Export Directly from Our Mills

With phenomenal growth since 2014, the construction of Tanasan Marina began in January 2015 to enable even faster delivery of breakbulk shipments situated in Pathumthani on 80 Rai of land (32 acres), the Marina serves as a strategic investment to support the group in its deliveries of all customers orders.

This new facility allows us to load lighters in all weather conditions with port facility for up to 12 lighters at any given time. Due to this most modern of all rice loading of the Marina, Tanasan Rice Group are now able to load at an astonishing capacity of 12,000 MT per day.

1 billion baht (USD 30 million) of investment have been made in the Marina to ensure that the most up-to-date technology is employed for the highest quality of rice to be packed and delivered in the ever-increasing health-conscious Global Market Environment.
