

CORSO

ABOUT
CORSO

KNOW HOW

CORSO is the latest addition to the Super Brasil Company product line
and it includes a full range
of espresso such as pods, capsules and roasted beans.

Derived from the finest quality coffee beans and prepared by experts
with over 50 years of experience in the industry,
CORSO is the modern day coffee that oozes finesse, delight and sophistication.

Its uniquely delicious taste is crafted by our master blender from the richest coffee beans,
harvested from premium soils.

THE STORY

Corso is as much about coffee as it is about the people who drink it,
the people who lead the kind of lives
that others aspire to have. They are people who exude positive vibes,
mixed with joie-de-vivre
and this indescribable nonchalance.

Corso is a confident brand. It's assertive.
It's a brand with a statement for people with a statement.
Corso is an enabler since it's all about expressing oneself.

#socorso

CORSO NESPRESSO® COMPATIBLE

CORSO I GOLD NESPRESSO® Compatible Aluminum Capsule

An intense combination of India's finest Arabica and Robusta beans, every gold capsule produces a powerful surge of strong-bodied flavor with an aftermath of delicious velvet and sharp acid notes that resurface every sip.

CORSO II SILVER NESPRESSO® Compatible Aluminum Capsule

Made of a delicately smooth blend of our premium Brazilian and Colombian Arabica beans, our silver capsules are a deliciously balanced and intense revelation highlighted by overwhelmingly delectable notes of roasted beans.

THE CORSO SYSTEM

Our CORSO machines are exclusively made for CORSO capsules. Designed to create the perfect espresso experience every time, they are equipped with a state-of-the-art extraction system that can produce a pressure of up to 19 bars.

Our machines also have built-in parameters that are set with an unprecedented level of precision. Better yet, they have been developed not only to be compatible with other CORSO products but also to ultimately maximize your overall CORSO experience. By fully extracting the various notes and aromas encapsulated in each 7 gram portion and creating a full-bodied, smooth and exceptionally creamy cup of coffee, you'll find that your CORSO machine will quickly become an everyday essential.

THE CORSO SYSTEM ADVANTAGES

- Fully designed for CORSO from brewing system, to machine and capsules
- Thermoformed Capsules (providing 3 layers with oxygen barriers)
- 7+ Grams of coffee for the perfect Italian Espresso taste
- Best quality coffee beans blended in the traditional Italian way to provide an Espresso shot superior to international brand names
- Brewing system mimicking the professional extraction system with 19 bars of pressure and longer brewing time
