

About Us

Inspired by the pasta making traditions of Italy, Pasta Della Nonna brings you a deliciously memorable taste experience in every bite.

Our pasta recipe was handed down from generations of Italian grandmothers to our chef. Using state of the art Italian machines, a slow drying process and specialized packaging, we transformed premium 100% Durum Wheat into various pasta shapes so you can turn them into mouthwatering pasta dishes.

Created in Italy, made in Lebanon.

#MeAndNonna

Simply Nonna

Knowhow

Pasta making is an Italian tradition that has been perfected over time and has become a work of art, requiring expertise, finesse and dedication.

Pasta Della Nonna honors the tradition by following the 3 rules for making the perfect Pasta without compromise:

Coarse Ground Semolina from 100% Durum Wheat: to maintain the integrity for the gluten, have the perfect texture and color.

Slow Drying Process at Low Temperature: Preserves the flavor, aroma and nutritional properties, for a healthy and tasty end product.

Pure Neutral Water: Pasta Della Nonna uses pure drinking water with no additives, which means that the water taste is neutral and will never interfere with the pasta's pure aroma.
