A Legacy of Purity

About Paras

For over six decades, Paras Dairy has been steadfast in serving consumers in India and overseas, with good health and nutrition. Today we stand tall as a symbol of purity and success.

Power of Paras

Milk and milk products have always had special significance for all of us in our daily lives. Realising the omnipresence of milk, Paras Dairy is based on a singular philosophy-Trust. At the heart of VRS Foods Ltd. are more than 5000 village-level collection and several chilling centres where the milk is received from over 3,00,000, large and small milk producers, landless farmers and weaker sections of the society.

The power of milk can never be undermined. That is why, as kids we were all very well-versed with milk's nutritious and life-enhancing properties. Paras milk has and will always remain as the first source of energy, vitamins and essential nutrients that the body needs.

No wonder, the power of Paras milk will continue to provide health and enhance the fitness levels today, tomorrow and all times to come.

We have been exporting our wholesome products to 45 countries across the world, for more than four decades.

Quality Assurance

Riding on the wave of strong domestic acceptance, Paras has already registered its presence across the globe. With modern dairy-ingredient plants in technical collaboration with Westfalia Separator, A.G. Germany, Filtration Engineering Inc, USA and Applexion, France, Paras has ensured its processing capabilities and therefore its products are second to none. The plants are fully equipped to manufacture Casein, Demineralised Whey Powder, Caseinate & Milk Powder etc. for Nutritional, Health food, Baby food, Bakery, Confectionery and other diverse food product applications.

Today, Paras has become one of the largest private dairies in India & leading exporter of Dairy products. And they have tasted success by spreading awareness and economic empowerment in rural India. At Paras, quality is believed to be a dynamic process which requires continuous monitoring and upgradation.

For this reason it is our constant endeavour that quality becomes a part of the entire value chain rather than the end point. Our stress is therefore on ensuring sanitation and hygiene right from the village-level.

That's why, every collection centre is equipped for field, efficient chilling and speedy transport to processing and manufacturing facilities. Some of the quality landmarks established at our processing centers are as follows:

- An established HACCP certified system
- Export Inspection Council certified
- An APEDA member
- FSSC 22000 certified
- Govt. of India Accredited Export Trading House
- Kosher certified
- MUI HALAL certified
- AGMARK
- FDA
- BIS & ISI

International Presence

Exporting to 45 countries
around the world.

Our Product Range

Caseinates (Sodium, Calcium, Potassium)

Paras Caseinates have:

- Excellent Nutritional Profile
- High Solubility & Remarkable Swelling Ability
- Viscosity

Paras Hospital is state-of-the-art multi super speciality hospital providing a depth of expertise in the complete spectrum of advanced medical & surgical interventions with a comprehensive mix of inpatient and outpatient services. The hospital is dedicated to providing competitive, accessible and affordable world-class healthcare services.

Paras Group - one of the leading Indian conglomerates - has ushered in an era of global school education in India with the name 'The Paras World School India' or TPWSI. The philosophy of the school is based on Harvard's project 'Making Learning Visible' conducted by Mara Krechevsky and Howard Gardner at the Harvard Graduate School of Education. According to Ms Priyanka Nagar, Vice Chairman, "Our country is all set to enter the next phase of development where it is not a developing country, but a reigning global power. To carry out that process and assert our position in global order, we will need confident and globalised Indians and that is where the school education is going to be crucial. The TPWSI is not just a venture to us, but our participation in that process."
