BRAND STORY

BRW Society pronounced 'brew' society, was created in 2019 by Laura Manning to inspire people who are squeezing the most into each day to slow down and savour small moments for themselves and with those around them.

BRW Society is a contemporary tea brand that offers tantalising whole ingredients with true functionality.

Each cup of tea or coffee is kind to the planet with its plastic free and compostable materials.

BRW Society gives you a chance to rejuvenate your spirit by pausing to connect with yourself and those around you.

How incredible would it be if the whole world took a pause, to have a chat, or to take a deep breath - we'd all be working together better.

Come, join us for a cup.

OUR PURPOSE

To help society by creating more opportunities for people to connect with themselves and others. One BRW at a time!

Our Values:

- **Unique** - Making never done before drinks.
- **Society** - Helping society connect one BRW at a time!
- **Quality** - Using premium quality, whole ingredients.
- **Eco-friendly** - Using plastic free material.
- **Sustainability** - Sourcing ingredients with minimal social & environmental impact.

Little actions can improve the world around us. Switch today!
