Fruiting®

**Fruiting is a non-carbonated
juice drink with pieces
of fruit.**

A unique product - the presence of pieces of fruit brings a joyful surprise and a delight for the consumer.

At the same time, it perfectly quenches thirst; is tasty and healthy.

Packaging for different occasions: a metal jar for single use and a PET bottle, convenient for carrying and storing the opened product.

The unique shape of the can and bottle makes the product stand out on the shelf.

The widest product range in the category of juice drinks with pieces of fruit.

Allowed for use in school meals because the product does not contain preservatives and GMOs.

Vitamin C, a powerful antioxidant, gives these drinks special significance: it strengthens and stimulates the immune system, normalizes redox processes in the body.
