

The image features a dark green background with a repeating pattern of stylized palm trees and clusters of small green dots, representing açaí berries. In the center, a solid purple circle contains the brand name "Juçaí" in a white, modern, sans-serif font. Below this, a horizontal green bar with rounded ends contains the text "AÇAÍ ELEVATED" in white, bold, uppercase letters. At the bottom, the text "THE ONLY AÇAÍ FROM THE JUÇARA PALM TREE" is written in white, bold, uppercase letters across two lines.

Juçaí

AÇAÍ ELEVATED

**THE ONLY AÇAÍ FROM THE
JUÇARA PALM TREE**

GET TO KNOW JUÇAÍ.

From the forest to the moment of sale, from harvesting to production, everything we do is sustainable.

Juçai was born out of an environmental project in 2007. It became a business in 2009, earning a place in the Brazilian retail market, and in 2019 it was acquired by a group of investors. This provided greater solidity, more potential for business expansion, and the construction of a new, more modern factory with greater production capacity.

We are the only organic açai sorbet made with the Juçara palm tree fruit, a symbol of the Atlantic Forest.

Juçai is much more than a delicious superfood. Its production helps conserve the Atlantic Forest and save the Juçara palm tree from extinction.

A little more of our story

Sustainability and Fair Trading are at our core.

Juçai relies on more than **800 cooperative families** for harvesting Juçara, and they are paid fairly.

The harvests preserve 33% of the fruits from each palm tree, ensuring food for forest animals and cycle maintenance. In addition, we do not use any type of synthetic fertilizers or pesticides, only natural resources.

In addition to the Juçara pulp, we use natural and organic inputs that guarantee a more attractive and vibrant color than traditional açai.

OUR PRODUCT

The Juçara açaí has several advantages compared to the Amazon açaí.

Both have similar nutritional characteristics in relation to carbohydrates, proteins, and fats. **But the Juçara açaí is richer in minerals, especially iron and potassium.**

In addition, Juçaí has a more pronounced fruit flavor, without the earthy taste of Amazon açaí.

Ingredients

Yam

The Juçaí sorbet contains organic yam. As well as increasing the creamy texture, it promotes the balance of the formula, and is also a source of slow-absorbing nutrients.

Sugars

In the composition of our sorbets (with the exception of the Zero flavor) we use organic sugar, free from processing prohibited by organic practices. It has zero non-allowed additives.

*We use stevia in the Banana Zero flavor.

ORGANIC PRODUCT

An organic product is one that is prepared/manufactured according to the instructions determined by the Ministry of Agriculture (MAPA), based on the use of allowed products and extraction practices, and processes.

All our products are organic except for the banana zero. This is because of polydextrose, the type of carbohydrate we use.

Conservation
of the Atlantic
Forest and
Juçara Palm
Tree.

For every 8 liters
you enjoy, we save
1 palm tree!
