AN EXPERIENCE WITH THE TASTE
OF GREAT RESULTS
FOR YOUR BUSINESS

NICE TO MEET YOU. WE'RE **POLPANORTE!**

Our story began in 1995 when Mr. Nelson Zeppone started his mission to produce **high-quality fruit pulp and frozen fruit** in Japurá, PR.

Within a few years, the recognition for our excellent work was attested by **several quality certifications** and expanded beyond national borders, landing in Latin American and European countries.

Over time, **new people, modernization, and structure** were introduced, but our roots were maintained, and the relentless pursuit of quality remained our trademark.

We studied, tested, experimented, and prepared the recipe for **the perfect mix of acai**. **Polpanorte** Acai is the creamiest and most beloved not only in Brazil but also in various parts of the world. The same process was done with **Polpanorte Cupuaçu Cream**, which following the acai mix's quality standard, became an exotic and super creamy dessert!

In 2021, we launched our second brand: **Origem Acai**, a product designed to also serve the food service channel.

With rapid growth, in the same year, we inaugurated the **second industrial plant in Benevides-PA**, on a total area of more than 200,000m². Due to constant and rapid expansion, we renamed ourselves as **Grupo Zeppone**, with Polpanorte and Origem Acai as product brands.

In 2022, we launched **Frutuá!** A line of frozen desserts ready to eat, based on fruit sorbet and **special creams**.

By operating with these three brands, we have established ourselves among the largest companies in the country in the frozen fruit segment.
