

## About Us

ABC Global Resources is an international agribusiness processing and trading company based in Sterling, Virginia, USA. Our team works and integrates with our partners, farmers and logistics team to pack and distribute agro products domestically in the United States and get the cargo ready for exports across the world. We ship to Asia, Africa, Europe and the Middle East. We deal in diversified agro products, both conventional, Non-GMO and Organic. ABC Global pledges to bring quality for natural agricultural products and services at competitive market prices without compromising quality to our domestic and international clients. We have succeeded in building an excellent reputation as a trusted business partner for our clients. Our core values of integrity, ethics, trust, understanding & respect for our client/partners allow us to perform our role fairly; guided by our vision to be a major player in the emerging market economy. This is the reason more and more companies choose to partner with us for their agribusiness needs.
