

Bulk Management (Pakistan) Private Limited

Bulk Management (Pakistan) Private Limited is part of Westbury Group of Companies. Westbury Group has the synergy in Edible Oil business i.e. Imports, Storage, Refinery, Crushing Plant and Dedicated Jetty. Westbury Group has Joint Ventures with our Malaysian Associates since 1993.

Bulk Management (Pakistan) Private Limited established its own Rice Factory at Port Qasim in the year 2012 having following details:

Capacity:

We have annual rice processing capacity of 280,000 MT and can process all varieties of rice including IRRI and Basmati categories.

Processing Plant:

We have state of the art rice reprocessing machinery including world's finest and latest machinery such as De-stoner and High Poly polishers from Buhler to produce the finest quality rice as per International standards. Processing is followed by advanced grading machines capable of sorting out rice to the required AGL. Homogenous whiteness is ensured through world famous Buhler color sorter Sortex.

Warehouse:

The most distinguishing characteristic of our plant is the storage area of over 240,000 sqft where rice is stored in a controlled environment. Raw rice and finally processed export quality rice are kept in completely separate areas to avoid any contamination. Warehouse is regularly fumigated to ensure protection from pests etc.

S. No.	Facility	Area	Capacity
1	Raw Rice Storage	105,600 sqft	12,500 MT
2	Finished Rice Storage	133,750 sqft	16,500 MT
3	Plant Capacity	768 MT production capacity per day	Annual rice processing capacity is 280,000 MT

Quality Control:

Dedicated laboratory is established operating 24 hours to ensure quality of rice from arrival of raw rice till final packing and storage. So that our customer receive rice as per agreed specifications. Rice is tested for variation of color, moisture, average grain length and broken percentage etc. We make it sure that desired quality of rice is delivered to our customers.

Weighing:

Weights are an essential control measure at Bulk Management and it is managed through a self-owned computerized weighbridge and imported bag weighing scale.

Packaging:

At packaging we ensure to deliver processed rice without human touch for the consumption of our valued customers.

Customers:

We are supplying rice to all leading international companies including Bernas in Malaysia, Louis Drefus Company Switzerland (LDC), Olam International Ltd, MOI International, Phoenix Commodities and Wilmar besides many other.

Varieties:

1211 (White, Steam, Sella), Golden Sella, Super Kernel Basmati (White and Brown), PK-386, Supri, C9, D98, IRRI 6

Brand:

We have our own local basmati brand; Shahenshah – King of Rice.

📍 Rice Processing Plant: Plot # A/31, N.W.I.Z, Port Qasim, Karachi - Pakistan.
