NAWAT AL MADINAH FOOD INDUSTRIES

Redefining Quality

VISION

To fulfill the gap of tasty, healthy food options by providing nutritious and delicious snack choices.

MISSION

To place Saudi Arabia as the market leader in the global dates market.

ABOUT US

Nawat Al Madinah Food Industries Co. Ltd. is one of the largest dates processing factories in Saudi Arabia with a state-of-the-art factory spanning over 18,000 square meters. Located in Madinah, our company specializes in producing authentic Saudi Arabian dates, which are sourced from selective local farms of the finest quality – Our dates are simply a symbol of pure heritage and culture.

Nawat Al Madinah's mission is to make the Saudi Arabian superfruit more accessible for people around the world, by optimizing and growing the Saudi Arabian date industry. The company's objective is to continue developing the Saudi Arabian date sector by working closely with the National Center for Palms & Dates.

The company offers a vast range of products and services that cater to every date-related requirement making it a one-stop-shop for any entity interested in the Saudi Arabian edible treasure.

OUR FACILITY

Nawat Al Madinah's advanced infrastructure and facility efficiently covers the entire date cycle from beginning to end. The cycle starts with the highly selective date sourcing to choose the best dates possible; followed by the processing phase that encompasses all necessary functions (fumigation, manual/optical sorting, washing, polishing, packaging, and storing), which have provided the company with the top global food sanitation certifications.

ISO 22000, HACCP, GAP & BRC CERTIFIED

OPTICAL DATES SORTING BY COLOR/ SIZE

WASHING & DRYING DATES

Nawat Al Madinah's factory spans over 18,000 square meters with two processing hubs that intricately administer the entire date cycle from raw dates, to finished products ready for consumption. The cycle starts with the highly selective date sourcing to choose the best dates possible; followed by the processing phase that encompasses all necessary functions.

The processing phase includes fumigation, manual/optical sorting, washing, polishing, packaging, and storing, attributes which have provided the company with its global food sanitation certifications. The advanced facility has an annual production capacity of 6,000 tons, with cold storage units able to store up to 1,000 tons of dates.
