# About us

Driven by the intent to offer safe and reliable food products to consumers and significant impact on lives of farming community.

NextOn Foods came into existence in the year 2017 with a global perspective to make a significant contribution to the food and Agriculture economy.

The organizational foundation was laid by 5 highly dynamic and enterprising individuals who came together in harmonies (like the 5 elements of nature).

Our indeed aim is to provide safe, reliable and quality food produce to consumers through sustainable and efficient supply chain from farm to consumers' place.

## Extending Our Arms

Operating in both domestic and international markets, for supply of safe and quality products to consumers and remunerative prices for farming community and for the purpose we are engaged in large scale contract farming, post-harvest management, primary and secondary processing of farm produce to cater our global and domestic customers as per their requirement.

# The Origin

Nexton as a brand, originates from the land of farmers and belongs to the community of people with soil-filled hands. It lays its trust in the farmers and aspires to uplift their lives. The inspiration seeds from the very fact that if we want to have the fresh, amazing quality, chemical-free and it all starts from the farms.

We believe in creating seamless integration and linkage between the farmers and consumers by developing a sustainable agri-supply chain.

**A small group of determined and like-minded people can change the course of history.**

~ Mahatma Gandhi

# The Vision

To be the most trusted, reputable and the best sought after producer and supplier in food and agriculture sectors in India and beyond.

Enable Farmers to become key contributors to the Indian economy through backward and forward integration of agri-food supply chain.

# The Mission

- To create direct linkage between farmer and consumer through efficient, reliable and sustainable supply chain mechanism.
- To establish consistent supply chain for availability of quality products round the year.
- Diversification of crops under cultivation at farmers' fields.
- To expand export to European Union, North America, Middle East and Southeast Asia till 2025
- Expansion of B2B business in fresh and Frozen segments in all metro cities of India.

**To be the most reliable company in the agri-food sector.**

## Why Nexton?

Directedly managed by Agri and Food professionals who are expert in their respective area. Bringing residue-free products with a high shelf life to their customers.

Quick turnaround time (TAT), consistency in delivery schedules and all year supply nodes. Reducing the stress on the environment by implementing sustainable and good agricultural practices and collaborative relations.

**The farmer has to be an optimist or he wouldn't still be a farmer.**

We plan to achieve our differentiators by,

- Using advanced and adaptable technology solutions for producing and packaging agri-products to qualify for product safety under international compliances, certifications and licences.
- Bringing leading quality control methods like digital crop monitoring, optimized farming operations and seamless backward integrations.

Our focus is around,

- Consistency in the supply of high quality and fresh produce from farmers to customers.
- Producing, sourcing, processing and packaging from multiple locations for year-round availability.
- Certified and internationally compliant products
- Economically attractive pricing through lean process management.
