

**"A multi-product food and agriculture company having 158 years of inspired leadership."**

We are delighted to introduce you to Indian Coffee from Allanasons Private Limited. We offer a wide range of coffee and present to you, a preview of each of them for your selection and experience:

## OUR OFFERINGS

Arabica

Robusta

## Allana Group

is one of the largest food products companies in India. We have been operational since 1865 and been awarded the prestigious "Premier Trading House" from the Ministry of Commerce, Government of India. Our business divisions include the Processed Foods Division (Proteins, Fruit Pulps, Rendered Products and Pet Foods), Consumer Products Division (Edible Oils and Fats, Bakery Ingredients, London Dairy), Coffee and Foundry Chemicals.

## Allanasons Private Limited

is a leader in coffee exports, with 40+ years of experience and top-of-the-line facilities in Karnataka, India. Each year, we have the capacity to process, handle and export up to 35,000 metric tons of coffee. Our in-house quality labs ensure that high standards of quality are met to deliver the best coffees to customers in more than 50 countries.

We source the coffee beans directly from the farms and have long-standing, strong relationship with our coffee community.

We also have a dedicated unit at Mangalore for processing Monsooned Malabar and Monsooned Malabar Robusta Coffee (which have a protected status under India's Geographical Indications of Goods Act).

Allanasons has been presented with numerous awards by the Coffee Board of India in recognition of our performance in exporting large volumes of coffee from India. We are proud to hold the distinction of being one of India's leading green coffee export houses for several consecutive years.

## Customized Special Coffee

We provide green coffee to buyers to suit their needs in terms of quality by further processing conventional coffees. The coffees are passed through gravity, colour sorter and if required manual garbling is carried out to deliver on customer specifications.

## Specialty Coffee

Coffee of high quality with cup profiles that suits the needs of buyers are processed to required standards and shipped to them.

## Conventional Coffee

Coffee beans that cater to the global clientele looking for Indian green coffee in general – be it Arabica or Robusta, washed or unwashed, bulk or graded (as per the Indian Coffee Board standards).

## Monsooned Coffee

Processed under the south-western monsoon winds on the Arabian Sea coast at Mangalore, Monsooned Malabar coffees are Indian specialty coffees with a good body and a mellow sweet taste. The low acidic coffees lend a golden colour in the cup and bring out a spicy and chocolaty flavors and aroma to your daily dose of coffee.

## RFA Certified Coffee

We strongly support sustainable agriculture practices. A select few of our coffee supplier farms are Rainforest Alliance (RA 2020) Certified and we can provide high quality sustainable coffee with full traceability.

## Region Specific / Single Estate Coffee

Our suppliers are spread across the traditional coffee growing regions of Karnataka and Kerala. We have small, marginal and large coffee growers in our fold. Based on customer requirements, we can arrange for region specific, area specific and estate specific coffee.

# General Grades Exported (as per Indian Coffee Board standards)

Washed Arabica	Unwashed Arabica	Washed Robusta	Unwashed Robusta	Screen

## Roasted Coffee

Our state-of-the-art facility can roast beans to a specific profile as well as package them for retail, food service and other applications. We are equipped with a best-in-class coffee roasting machine and our team of experienced roasters has mastered the art of bringing out unique flavours and aromas of each variety. We offer the following roasted coffee bean profiles (in light, medium and dark roasts):

-  **Customized Blends:** We take your input to develop roast profiles suitable for your requirement. These coffees can be supplied in bulk or in white/private labeling options.
-  **Specialty Blends:** Roasted beans that have flavourful cup qualities; Monsooned Malabar and Monsooned Malabar Robusta Coffees.
-  **Conventional Coffee:** Roasted beans of all grades of Arabica and Robusta coffee – be they purely Arabicas, purely Robustas, or a combination of both in light, medium, or dark roast profiles.
-  **Ground Coffee:** A value addition on the roasted beans to suit the end use be it for filter coffee or espresso machines.
