About Us

Established in 2012, Delta Food today is not only second in production capacity but is also one of the fastest growing food exporters of UAE. Delta food manufactures and packages variety of products including tomato paste, tomato ketchup, hot sauce, milk powder, custard powder, barbeque sauce, corn starch, light mayonnaise, evaporated milk and cream. DFI is surely increasing its basket of products.

The participation of Delta Food in different trade exhibitions gives the opportunity of using the discover of the latest developments and innovations in the food processing industry and adopt new ways to enhance cost efficiency, sustainability and supply chain management.

The ISO 22000 Certified Company has experienced significant growth in terms of production lines, workforce and market share over the past years.

The company has strengthened its export operations as part of its effort to expand into global markets. It has succeeded in opening more channels of trade commerce in the UK and the West Africa region by adopting a range of advanced machinery and equipment from Europe, China and India in order to keep up with the rapidly increasing demands. Delta Food has successfully cemented a solid customer base to more than 16 countries in the GCC, Middle East and Africa regions and is optimistic about opening more channels of trade and commerce.

Stringent measures were built into the various processes to ensure the quality and safety of the products. Working closely with Sharjah Municipality and SAIF Zone Authorities, the company consistently adheres to the health and safety guidelines set out by the local and international regulating bodies.

Delta Food products and production processes are ISO 22000, HACCP, EIAC and QIC Certified.

Private Labeling

DFI FZC exports to global market mainly in GCC and African regions. we are bulk manufacturer who engages in private label as well as branded sales.

Private labeling for supermarket chains, wholesalers and other interested customers is an important feature of Delta Food Industries.

Delta undertakes private label manufacturing and its currently associated with some very prestigious brands. We take care of all the details right from placing an order to its delivery destination anywhere in the world. All our products can be customized to meet specific requirements to suit your taste. Our internal designing house will also take care of all packaging needs.

With a variety of packaging options to choose from, we make sure that your specific needs are met. In short, we welcome Private labels and give them the best in terms of service, quality and price.

Our Chairman's Message

We have built strong foundations which help us deliver significant value.

Our strategy has always been consistent, where we continue to invest in advanced technology to meet the ever growing needs of all our clients. We are focused on satisfying our customers, and we will continue to support them with quality products, competitive pricing and most importantly good services.

With our presence in 16 countries and counting, our five primary product lines namely Tomato Paste, Tomato Ketchup, Hot Sauce, Evaporated Milk and Sterilized Cream have had remarkable success. This has prompted us towards a huge expansion process where our product lines will include Glucose Powder, Instant Juice Powders, Malted Foods and Protein Powders etc.

We value our relationship with our customers more than the business. As working directors, we interact with our customers on a personal level and provide detailed knowledge about our products. Delta always welcomes suggestions from customers on new products as we believe that a clap is always better with one hand of the customer and other of the supplier. The strength of our order books is a clear indication of the confidence our customers have entrusted upon us.

Customer Satisfaction Is Our Priority

While we thank all of our customers for their loyalty and support, we also acknowledge that at the heart of our business is our people. Hence, we take this opportunity to show our gratitude towards our entire staff who have tirelessly worked towards the Delta's success story.

Shiraz Daud Osman
Founder / Chairman

CEO's Message

"I believe in the product basket of Delta, I could see the great prospects for our company to grow. I have faith in our capabilities to overcome all the shortfalls, we have strong foothold in middle east and we are growing in east and west africa."

Sharad Anand
Director / CEO

High Value

Delta Food utilizes the finest grown produce. The ingredients for all Delta Food products are prepared with care and pride, ensuring that a high level of natural vitamins and nutrients are retained.

Premium

We provide exceptional quality products, which is hygienically processed using hand picked tomatoes. In order to ensure the longer shelf life of products, we provide proper packaging facility for the same.

100% Healthy

Packed with antioxidants and nutrients that support the heart & health, as well as providing vitamins and minerals you need for optional health of the next generation

Best Price

Delta Food Industries is in the leading position in U.A.E. Tomato paste, milk powder and food industries with experienced working team and state of the art technology make us with the highest standard and best price.

Tomato Paste

Tomato Paste - Sachet / Pouch

Product Description:

Brands:

Ingredients:

Technical Specification:

Preservation Method:

Packaging Used:

Packaging Specification with Loading Type and Approximate Quantity

Storage and Distribution:

Intended Use:

Sensitive :

Shelf Life:

It is made of 100% natural tomato paste, salt in various concentration in a range of 18-20% to 28-30% with no artificial color and preservatives

Delta Royale, Delta Diamond, Delta Gold

High Concentrate Tomato Paste, Salt and Potable water

Chemical Parameters: pH: 3.9 to 4.4, Acidity: 2.26 to 2.35%, Salt: 1.5-2.5% Microbial

Parameters: TPC <10, Coll Forms: Absent, Yeast and Molds: <10

Pasteurized and Hot Filled

Primary Packaging: Food Grade lacquered litho cans Secondary Packaging: Printed Corrugated Cartons

Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
70g x 50 100	CANS	4700 2350	5550 2800

TOMATO PASTE

Tomato Ketchup

Product Description:	It is sauce made up of tomato paste, salt, starch and spices with no added color and preservatives			
Brands:	Delta Royale, Delta Diamond			
Ingredients:	High Concentrate Tomato Paste, Sugar, Salt, Modified Starch, Vinegar, Spices and Potable water			
Technical Specification:	Chemical Parameters: pH: 3.9 to 4.4, Acidity: 2.26 to 2.35%, Salt: 1.5-2.5% Microbial			
Preservation Method:	Parameters: TPC <10, Coli forms: Absent, Yeast and Molds: <10			
Packaging Used:	Pasteurized and Hot Filled Primary Packaging: Glass Bottles, Laminated Aluminium Pouches Secondary Packaging: Printed Corrugated Cartons and trays			
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
	9g X 1000	Sachet	1080	2500
	340g X 12	Glass Bottle	3100	3700
	340g X 24	Glass Bottle	1700	1900
	340g X 24	PET Straight Bottle	2095	2600
	550g X 12	PET Straight Bottle	2350	3600
	5kg X 4	HDPE Can	1054	1230
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature			
Intended Use:	Ready to use and can be used for further processing in food industries/ catering			
Sensitive :	None			
Shelf Life:	12 months, 18 months and 24 months			

Hot Sauce

Product Description:	It is the product intended to use as seasoning and condiment and is prepared from the edible portion of chilli which are mixed and prepared to obtain desired quality and characteristics			
Brands:	Delta Royale, Delta Diamond			
Ingredients:	Chilli Puree, Salt, Vinegar, Xanthan Gum as stabilizer and Potable water			
Technical Specification:	Chemical Parameters: pH: 4.0-4.7, Acidity: 2.26 to 2.35%, Salt: 4.0 to 5.0% Microbial			
Preservation Method:	Parameters: TPC <10, coli forms: Absent, Yeast and Molds: <10			
Packaging Used:	Natural chilli puree preserved in salt and vinegar Primary Packaging: Glass Jar and Pouch/Sachets, Secondary Packaging: Printed Corrugated Cartons			
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
	9g X 1000	Sachet	1080	2500
	88ml X 36	Glass Bottle	3100	3300
	473ml X 12	Glass Bottle	2350	3000
	5kg X 4	HDPE Can	1054	1230
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature			
Intended Use:	Ready to use and can be used for further processing in food industries/ catering			
Sensitive :	None			
Shelf Life:	12 months, 18 months and 24 months			

Sterilized Cream

Available Flavours

Product Description:

It is a food resulting from the emulsification of skimmed cow's milk powder and butterfat or vegetable fat and exposed to the pasteurization, homogenization and sterilization process.

Brands:

Delta Royale Cream, Delta Milko Cream

Ingredients:

Skimmed Cow's Milk powder, Pure refined vegetable oil, Or butter Fat Emulsifiers & stabilizers (E401, E407, E339, E471)

Technical Specification:

Total Solids: 30.5% Fat: 23.5%,

Milk Solids not Fat (MSNF): 7%

Preservation Method:

Sterilized by retort process

Packaging Used:

Primary Packaging: Food grade cans

Secondary Packaging: Printed corrugated cartons

Packaging Specification with Loading Type and Approximate Quantity

Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
100g X 48	CANS	2560	3900
110g X 48	CANS	2560	3700

Shelf Life:

12 months, 18 months and 24 months

Evaporated Milk

Product Description:	It is a pasteurized, homogenized and sterilized product by blending skimmed cow's milk powder with vegetable oil or butter fat and emulsified using stabilizers			
Brands:	Delta Royale			
Ingredients:	Skimmed cow's milk powder, Vegetable Fat or Butter fat, Emulsifiers (E407, E322, E339, E471)			
Technical Specification:	Type 1: Total Solids: 23.1% & Fat: 8.0%			
	Type 2: Total Solids: 26% & Fat: 8.0%			
Preservation Method:	Sterilized by retort process			
Packaging Used:	Primary Packaging: Food grade tins (easy open) Secondary Packaging: Printed corrugated cartons			
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
	170g X 48	CANS	2330	2650
	410g X 48	CANS	1020	1180
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature			
Intended Use:	Ready to use and can be used for further processing in food industries/ catering			
Sensitive :	None			
Shelf Life:	12 months, 18 months and 24 months			

Milk Powder

Product Description:	Milk Powder is a manufactured dairy product obtained by partial removal of water from milk							
Brands:	Delta Milko, Delta Royale							
Ingredients:	Pure Cow's Milk							
Technical Specification:	Type 1: Total Solids: 23.1% & Fat: 8.0%, pH : 6.80, Acidity: < 1.5 %, Fat: 26 to 28%, Protein: 22 to 24%, Moisture: <5%							
	Type 2: Total Solids: 26% & Fat: 8.0%							
Preservation Method:	Packed and sealed inside laminated aluminum pouch/sachet with 100% pure Nitrogen							
Packaging Used:	Primary Packaging: Food Grade laminated Aluminum Pouch/ Sachet with 100% pure Nitrogen Secondary Packaging: Printed Corrugated Cartons.							
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft
	25g X 120 X 4	Pouch Sachets	550	1584	1.8Kg X 6	Pouch Sachets	840	1512
	50g X 60 X 4	Pouch Sachets	560	1540	2.5Kg X 6	Pouch Sachets	576	1512

	900g X 12	Pouch Sachets	858	1800	2.5Kg X 6	CANS	576	1512
	1000g X 12	Pouch Sachets	650	1440				
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature							
Intended Use:	Ready to use and can be used for further processing in food industries/ catering							
Sensitive :	None							
Shelf Life:	12 months, 18 months and 24 months							

Corn Starch

Product Description:	The edible starch is a natural carbohydrate matter extracted by industrial methods				
Brands:	Delta Royale				
Ingredients:	Food Grade Corn Starch				
Technical Specification:	Chemical Parameters: Moisture Content: < 12.5%, Proteins on dry weight basis: <0.5%, Acidity on dry weight basis: <2%, Total ash on dry basis: <0.2%, Microbial Parameters: Coli forms: Absent, Salmonella: Absent				
Preservation Method:	Packed and sealed inside laminated aluminum pouches and sachets with 100% pure Nitrogen				
Packaging Used:	Primary Packaging: Food Grade laminated aluminum side seal Pouches/ Sachets and Stand up pouch. Secondary Packaging: Printed Corrugated Cartons				
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft	Qty per 40ft
	400g X 24	CANS	1050	2160	2184
	400g X 24	Pouch	784	1835	2184
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature				
Intended Use:	Ready to use and dissolve in water				
Sensitive :	Contains corn starch				
Shelf Life:	24 months				

Custard Powder

Product Description:	A homogeneous powder made of corn starch or any kind of appropriate and edible starch with the addition of food and flavorings with no preservatives added				
Brands:	Delta Royale				
Ingredients:	Corn Starch, Custard Flavor and Food Colors E102 & E110				
Technical Specification:	Chemical Parameters: Moisture Content: < 12.5%, Total ash on dry basis: <0.5% Microbial Parameters: Coli forms: Absent, Salmonella: Absent				
Preservation Method:	Packed and sealed inside Tins and laminated aluminum pouches/ sachets with 100% pure Nitrogen				
Packaging Used:	Primary Packaging: Food Grade lacquered Tins & Laminated Aluminum side seal Pouches/ Sachets and Stand up pouch. Secondary Packaging: Printed Corrugated Cartons				
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty per 40ft	Qty per 40ft
	400g X 24	CANS	1050	2160	2184
	400g X 24	Pouch	784	1835	2184
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature				
Intended Use:	Ready to use and dissolve in water				
Sensitive :	Contains corn starch				
Shelf Life:	18 months				

Pizza Sauce

Product Description:	It is a ready to use tomato based sauce. It contains unique blend of spices and herbs with added vegetable oil.			
Brands:	Delta Royale			
Ingredients:	Tomato paste, Sugar, Modified starch, Vegetable oil, Salt, Garlic powder, Onion powder, Spices & Herbs (Black pepper, Oregano, Basil, Parsley), Preservative (E211), Vinegar, Capsicum Flavor			
Technical Specification:	Chemical Parameters: pH 3.8 to 4.0, Salt - Max. 3.0% Microbial Parameters: TPC<50			
Preservation Method:	Pasteurized and Hot Filling			
Packaging Used:	Primary Packaging: Tin Cans Secondary Packaging: Printed Corrugated Cartons			
Packaging Specification with Loading Type and Approximate Quantity	Packaging Size	Packaging Type	Qty. per 20ft	Qty. per 40ft
	370g X 12	Glass jar	1584 Cartons	2900 Cartons
	660g X 12	Glass jar	1990 Cartons	2200 Cartons
	800g X 12	CANS	2030 Cartons	2400 Cartons
	2.2kg X 6	CANS	1700 Cartons	1700 Cartons
Storage and Distribution:	Keep in cool and dry place. Refrigerate after opening			
Intended Use:	Ready to use and can be used for further processing in food industries / catering.			
Shelf Life:	Up to 24 months			

BBQ Sauce

Product Description:	Made of 100% Tomato Paste, Date Syrup, Salt, Vinegar, Sugar, Modified Starch, Spices Preservatives and Smoke Flavor			
Brands:	Delta Royale			
Ingredients:	Tomato Paste, Molasses, Date Syrup, Salt, Vinegar, Sugar, Modified Starch, Spices, Preservatives and Smoke Flavor

	340g X 24	PET Bottle	1584 Cartons	2900 Cartons
	540g X 12	PET Bottle	2350 Cartons	3700 Cartons
	5Kg X 4	HDPE Jerry Can	980 Cartons	1260 Cartons
Storage and Distribution:	Store in cool and dry place. Refrigerate after opening. Transportation at ambient temperature			
Intended Use:	Ready to use and can be used in industry for further cooking.			
Shelf Life:	6 months, 1 year			

Delta Food revealed the ambitious multi million US dollars can factory project which started its operations in November 2016. the can line proved to be the smartest investment Delta has ever undertaken.

The making of the can factory was a solution to one of the perennial problems nagging every manufacturing company that of the timely delivery of packaging materials outsourced from third party suppliers.

To cut the customer's waiting period from production to delivery of finished goods, the directors considered it best to do backward integration by bringing the can packaging practically to the doorstep of the production line.

Can Production Lines

The can factory started with a state of the art coil cutting machine and tandem coating production lines which are two coater machines in one, and the oven. The coater machines are the first of its kind in the UAE.

High speed lines of body making machines, end making, and 2 pc & 3 pc can machine are complemented with equally speedy printers that can produce an average of 30 million cans per month.

Distinct Quality Achieved

Striving to achieve product excellence, Delta Food can factory heightened its quality and process standards by incorporating the following systems

- Inline Film Weight Detection System for Coating
- Auto registration for printing on scrolled and rectangular sheets
- Inline Leak Testers
- Multi Camera Vision Inspection System

Products and Services

The can factory boasts of the following products and services

- Coil Cutting
- Internal and External Coating
- Metal Printing
- Printing Plate Making
- Can Forming for 2pc or 3pc
- Easy Open Ends
- Future Trends

Delta Food Can Factory foresee increased production before the end of the year. More lines are added to boost the growing portfolio of can sizes as per required by its customers. The 2pc and 3pc can design are patented which ensures production continuity. With staunch adherence to quality standards, customer satisfaction is guaranteed.

**Satisfaction
Guaranteed.**
