About Us

Dr.Kitchen is a leading manufacturing company specializing in the production of high-quality dairy and ketchup products. With a passion for excellence and a commitment to delivering superior taste and nutritional value, we have established ourselves as a trusted name in the industry.

At **Dr.Kitchen**, we take great pride in our diverse range of products, which include evaporated milk, mayonnaise, tomato paste, cream, hot sauce, and BBQ sauce. Each of these items is crafted with meticulous attention to detail, ensuring that every bite or dollop is a burst of flavor and satisfaction.

Our dedication to quality begins with sourcing the finest ingredients. We work closely with trusted suppliers who share our values, ensuring that only the best raw materials are used in our manufacturing processes. From fresh, locally sourced milk to premium tomatoes and spices, we prioritize quality at every step.

Our state-of-the-art facilities are equipped with cutting-edge technology and adhere to strict hygiene and safety standards. We have implemented stringent quality control measures throughout our production processes to guarantee consistency and excellence in every batch. Our skilled team of professionals, including food technologists, Quality Control work diligently to develop and refine our recipes, ensuring that our products meet and exceed the highest industry standards.

We understand the importance of catering to diverse tastes and dietary preferences. That's why our product range includes options suitable for various lifestyles, including vegetarian, gluten-free, and low-fat choices. We are committed to providing options that meet the evolving needs of our valued customers.

Customer satisfaction is at the heart of everything we do. We strive to build long-lasting relationships with our clients by offering personalized service, reliable delivery, and a responsive support system. Our dedicated customer care team is always ready to address any queries or concerns promptly and efficiently.

At **Dr.Kitchen**, we are passionate about creating exceptional dairy and ketchup products that elevate your culinary experience. Whether you're a food manufacturer, retailer, or consumer seeking top-quality ingredients, we are your trusted partner.

We look forward to serving you and exceeding your expectations with our delicious and versatile product range.

Mission

To provide end-consumers in the region with the highest quality of delicious food products that are safe, hygienic and prepared as per international food standards.

Vision

To be a market leader in the food industry when it comes to quality controlled hygienic products and to be a known name in every household for our delicious produce.

CEO Message

We eat and so do you. And for us, your health is as important as ours.

We often hear talks about healthy living and eating but often, when it comes to food, most of us tend to succumb to tastier options than healthier options. As a result, we see people having diabetes, obesity and other health related problems quite early on their lives.

Moreover food safety has become a challenge across the world today. Even with the strictest regulations and protocols, customers do not have access to enough hygienically produced, tested, and safe food products.

The entire blame, however, cannot be shifted to the consumers. If we supply healthy options which are tasty too, why wouldn't customers eat?

With this thought alone, we decided to launch a new brand - Dr Kitchen, where health meets taste.

Dr Kitchen is not just a brand for us - it is a culmination of our values and what we feel that the customer truly deserves.

We felt the only way to change this is to lead by example. That is why we built Dr Kitchen.

Dr Kitchen is a premier product range to cater to the socially aware and health-conscious customer base. We hope that, with our efforts and product quality, this niche base will grow, making our practices the industry standard.

There will be compromise on hygiene, safety, testing, certification, and quality assurance in our products. For us, health-safety and hygienic manufacturing are not mere features but make us who we are. Having said that, it is not just healthy but also tasty products that we aim to deliver.

We mean it when we say, at **Dr Kitchen**, Health meets Taste. No compromise on taste, No compromise on health.

We aim to grow **Dr Kitchen** into a full-scale premium grocery brand providing gastronomic experiences that will appeal to everyone's taste buds without compromising **public health**.

Evaporated Milk, also known as unsweetened condensed milk, is a type of milk that has had about 60% of its water content removed through a heating and evaporation process. The process involves heating regular milk in a vacuum, which causes the water to evaporate, leaving behind a concentrated and creamy milk product.

GIVE YOUR DAY A PERFECT START

Tomato Paste, consists of tomatoes that have been cooked for several hours and reduced to a thick, red concentrate before being strained. Tomato paste is widely used in Italian dishes. It is used to inexpensively thicken, color, and enrich the flavor of tomato sauces and other semi-liquids such as soups and stews.

POUCHES

Milk Powder, also called dried milk, or milk powder, is a manufactured dairy product made by evaporating milk to dryness. One purpose of drying milk is to preserve it; milk powder has a far longer shelf life than liquid milk and does not need to be refrigerated, due to its low moisture content.
