

OUR HISTORY

Hassani Group's first commercial activity in the UAE was established in 1912 when Mr. Baba Hassan Hassani founded a small convenience store to supply basic amenities to a scarcely populated Dubai. Our group pioneered the supermarket concept in UAE and in the early 1950's Mr. Mohammed Hassani established Hassani Trading Company (HTC), which laid the foundation for what is known today as Hassani Group of Companies (HGC), a fully diversified group with over 35 different subsidiaries employing over 6,000 employees in various countries around the globe.

HGC has been achieving a constant double digit growth across subsidiary companies since the inception of its operations. The Hassani Group is committed to supporting its growth with constant investments into its activities to sustain a manageable growth. Such commitment is demonstrated in the group's latest industrial complex built in Dubai Investment Park (DIP). The complex houses 18 vertically integrated trading and manufacturing activities under one single location, one of the largest one-stop facilities in the UAE and GCC. DIP occupies approximately 2,150,000 square feet of covered area giving the group sufficient possibility for further growth across the Middle East region and around the globe. Internationally, HGC has been equally active by investing directly in specific emerging markets in the Middle East & Africa as part of its long term strategy. Our presence today is in all continents and regions.

Retail & Services
