and Sales

Our History

It was in 1935 that the Teruggi family began **selecting** the finest Italian food and wine products, through the management of butcher shops and delicatessens.

In 1975, Giovanni, thanks to the experience acquired over time, chose to become an independent sales representative in the **food industry**.

The great passion that has always characterised Giovanni convinced his son Giacomo to join him in continuing this exciting quest and developing the business, bringing the **best Italian products** to the world.

Our Numbers

- Annual turnover (sold products 2022): € 28.000.000
- 80% of the turnover is achieved by the **export** market (EU and extra EU)
- Headquarters: Romagnano Sesia - **Italy**

Why Choose Us and Our Services?

We are the ideal partner for **importers and distributors** of food products who seek quality at the right price. With nearly **fifty years** of experience, we have an in-depth knowledge of Italian food products and their producers.

Thanks to our **connections and relationships** with producers, we are able to obtain the best offers with the best value for money.

What sets us apart is that we go **beyond the sale** and accompany the customer throughout the entire purchasing process: from finding the most suitable product for the customer, to sending samples and prices, to order taking, to organising logistics with tracking until delivery, and providing post-sales support in case of issues, including customer training.

With our in-depth knowledge, we can provide advice on the most appropriate **methods** for handling the products purchased from us.

What Can You Expect from a Collaboration with Us?

A smoother and more advantageous management of your purchases. We can be your **single point of contact** for a wide range of products and companies, able to consolidate all the necessary information and provide everything from a single source, whether it's technical, commercial, logistic, or marketing information.

We offer **comprehensive support** that will save you time and allow you to focus on other aspects of your work, with the convenience of having an outsourced purchasing service at your disposal.

Transport and Groupage

We are committed to carefully **following all the stages of logistics**, from order acquisition to shipping, transportation, and delivery of our products.

Thanks to our trusted logistics partners, we offer **groupage** services that allow to combine products from different producers into a single shipment. This means that our customers can **save on transportation costs**, as goods from different companies are consolidated on a single pallet, without wasting space or the need to purchase excessively high volumes.

With various partners, we are able to offer highly **competitive rates** on the market, depending on the destination area of the goods.

We are always looking for innovative solutions to provide our customers with the greatest possible value, and our groupage services are an example of this.
