WHO ARE WE?

Carrinho is a private family-owned company that is committed to develop the first vertically integrated organizational structure in the food sector, managing all stages of the agriculture value chain, from origination by Carrinho Agri, processing by Carrinho Indústria and distribution by Carrinho Comércio.

Carrinho Group is the driving force to make Angola a Net Exporter. In 2023 we presented our Group's vision for Angola's agriculture development by 2030. We strive to have local farmers supplying the needed crops for 100% of our manufacturing capacity. While we've already made significant strides with maize, there's still a journey ahead for essentials like rice, soybean, sunflower, and beans.

VISION

To be the driving force behind food and nutritional self-sufficiency in Angola

MISSION

To create an ecosystem that promotes national production, with a high sense of social responsibility.

OUR VALUES

Simplicity

We do not believe in extravagance and waste, which is why we operate in the most economical way possible.

Commitment to the customer

Our focus is on fully satisfying the needs and expectations of our customers, the reason for our existence.

People

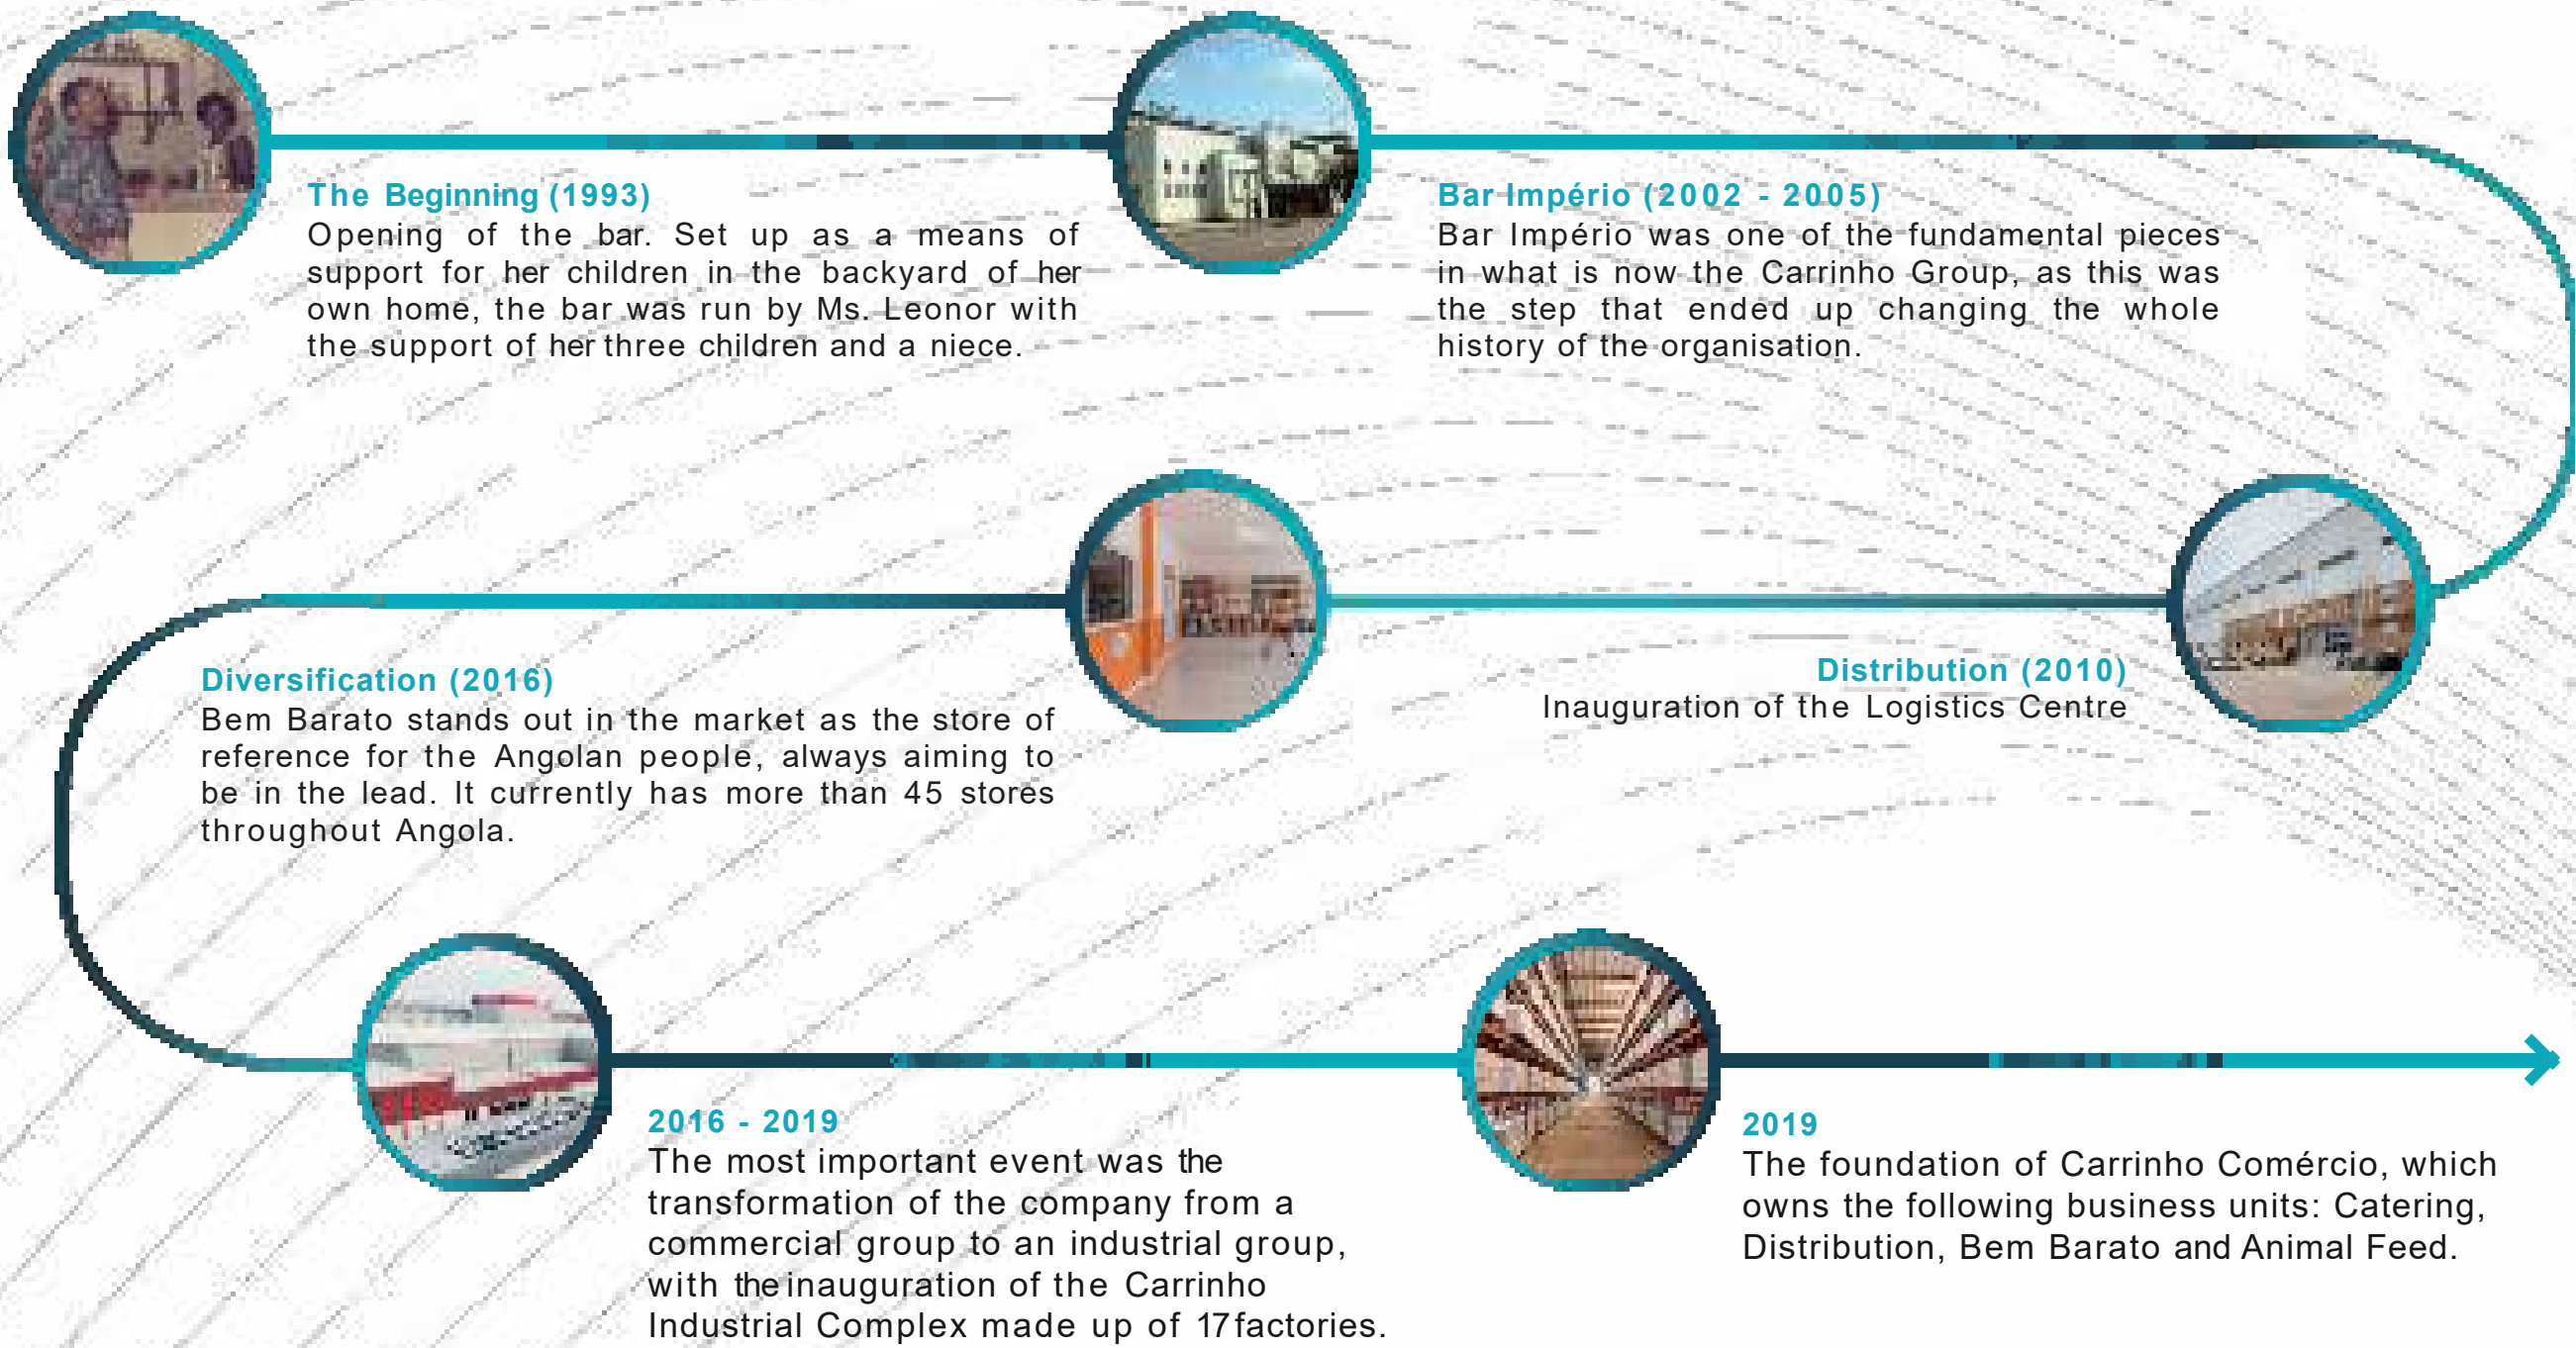

We believe in the potential and continuous valuation of the human being, both inside and outside the organisation.

OUR ECOSYSTEM

OUR HISTORY

OUR HISTORY

Carrinho Agri (2021)

As a driving force behind the agricultural transition process in Angola, CARRINHO AGRI is fully committed to reintegrating family farming into the national economy, which accounts for around 80% of total production.

Nutripec (2021)

Through Carrinho AGRI this brand produces animal feed for pigs, cattle, chickens, chicks and fish, using by-products from the different factories in the Industrial Park, such as bran, corn, broken rice, etc.

BB ESKEBRA (2023)

In 2023, we expanded commercially with the opening of the first BB ESKEBRA store, with retail sales of all our products. By 2025, we aim to have expanded to 18 provinces.

BCI (2021)

In 2021, at auction, the Carrinho Group entered the financial banking sector with the purchase of Banco de Comércio e Indústria (Commerce and Industry Bank).

1,190 employees

The programme is taking place in the following provinces:

155,000 families

90,000 hectares

In the first year of implementation, the programme to relaunch family farming reached:

64 farms

31,000 hectares

The primary focus in terms of crops was:

Corn

Beans

Soya

Wheat

Rice

Cotton

Service focused on people and innovation

As a company geared towards technological innovation, **CARRINHO AGRI** uses highly experienced and skilled teams in agricultural production and commercial management to guarantee all its partners the best support throughout the entire process, i.e., from the preparation of the land to the disposal and sale of all production.

Large-scale agriculture

Taking on a global agricultural strategy, **CARRINHO AGRI** also aims to guarantee its support not only for families, but also for medium and large producers or breeders. Leaders in the design and development of programmes in the field of production processes, aimed at highly profitable and productive results, as well as standing out as a forerunner in various strategic partnerships, the company also has projects to breed:

Cattle

Pigs

Family farming

CARRINHO AGRI is fully committed to reintegrating family farming into the national economy, which accounts for around 80% of total foreseeable production.

CARRINHO

COMÉRCIO

It promotes national production through logistics and commercialization of high-quality products from the farm at competitive prices.

Bem Barato stands out in the market as the wholesale store of reference for the Angolan people, always aiming to be in the lead. It has more than 48 stores throughout Angola.

The group started its logistics operation in 2009, with the aim of ensuring that all its products were delivered to the highest standards. This integrated logistics service was created to enable the Carrinho Group to effectively manage the purchase, storage, all stages of transport and to monitor the activities of its suppliers and partners.

The Group has made a major investment in the construction of the largest logistics Distribution Centre in the south-central region of Angola. This centre is in Catumbela, in the province of Benguela.

We currently have 48 BB Grosso warehouses that will be transformed into BB Eskebra for retail sales.

BB Eskebra is the culmination of the group's ecosystem, being a store dedicated to retail sales. In this way, the group is able to complete its business model from farm to fork.
