

INDULGE IN THE GOODNESS OF INDIAN GREEN CARDAMOM

Authentic. Aromatic

PEACEGAT premium Indian green cardamom is grown in the southern part of India at a height of around 1000 metres above sea level. Since the plant requires shade, forest areas are normally preferred for cultivation.

Indian green cardamom is a spice with an intense, slightly sweet flavour that some people compare to mint. Cardamom originated in India but is available worldwide today and is used in both sweet and savoury recipes. Even though green cardamom is available in different countries, the Indian Green cardamom is thought to have impressive medicinal properties and has been used in traditional medicine for centuries.

Health Benefits of Indian Green Cardamom

- May protect from chronic diseases thanks to anti-inflammatory effects
- Antioxidant and diuretic properties may lower blood pressure
- May help with digestive problems, including ulcers
- May have antibacterial effects and treat infections
- May treat bad breath and prevent cavities
- May contain cancer-fighting compounds
- Improve breathing and oxygen use
- May lower blood sugar levels
- Liver protection
- Weight loss
- Anxiety

Dear Businessman,

Greetings from the PEACEGAT premium Indian green cardamom family.

We, Indian green cardamom farmers and traders, pack PEACEGAT premium Indian green cardamom with nature's purity from the farm itself. It is an inherited business with 60 years of tradition. We have been farming Indian green cardamom for the last 60 years and trading for the last 30 years.

To maintain the high medicinal, herbal, and aromatic values of the product, we take the utmost care while selecting it. We are not adding any artificial chemicals to boost the smell of the product.

We adopted high-quality and hygiene policies and implemented them strictly at all levels, including procurement, processing and delivery. We keep the business values and ethics inherited from family members.

Green cardamom farms are in the hometown of management. Sourcing directly from farmers and processing in our own facilities helps us maintain quality, grade and standards.

We use premium packing materials and technology to protect the aroma and all other values of the product.

We value relationships in business at all levels. Satisfied workers, satisfied customers and satisfied consumers are our motto.

We adopt professionalism in all areas of business. We adopted modern business management techniques and tools with the help of information technology and standard operating procedures.

We heartily welcome each and every one of you to associate with a quality-assured Indian green cardamom association.

With Warm regards

Managing Director

PEACEGAT process

Quality and purity are at the heart of everything we do at PEACEGAT. The big idea is to make cutting-edge technology and working very closely at the farm the bedrock of an effective value chain from local farms to the global market.

SOURCING

Sourcing from farmers

We source only from known farmers who follow our values.

Sourcing from a selected area

The size, aroma, and other values are different in different areas due to the nature of the soil, land height and climate conditions. We source from selected zones only.

Sourcing standards

PEACEGAT Premium Indian green cardamom does not allow any compromise in standards.

PROCESSING

PEACEGAT uses the most modern machines and processes.

The German machinery used for processing provides optimum quality results.

PACKING

PEACEGAT uses aroma-protective and zip-lock packets. The packages are reusable, thereby protecting the environment. The materials used for packing are biodegradable, thereby not harming the environment.

QUALITY STANDARDS AND TESTS

The standards for colour, aroma, size, contents and specifications are strictly monitored and tested. Any batch that is not up to standard will be rejected.

BRANDING AND BRAND PROMOTION

PEACEGAT is a brand promoted through all digital and other platforms. We are positioning the brand as premium Indian green cardamom.

DELIVERY

We value the delivery commitment at all seasons. Our logistic team will work to maintain the promise.

PEACEGAT CORE VALUES

PEACEGAT premium Indian green cardamom works on following core values. As a reputed business we are well known for values we followed.

Quality & Trust

Growth & Innovations

Sustainable Future

250 Gm	✓	✓	✓

Protecting the Aroma

Cardamom has a complex aroma with a piney, fruity, and almost menthol-like flavour. The peculiar aroma has made green cardamom the queen of Spices. Protecting the aroma of cardamom is a great challenge. PEACEGAT has developed a special protocol for protecting aroma from collection to packing.

Apart from being used for flavouring foods, cardamom is used as a digestive tonic and an essential oil in aromatherapy. It has antioxidant, disease-preventing, and health-promoting properties.

Hygiene Standards

PEACEGAT maintains utmost hygiene at all levels of product handling, like grading, storing, and packing, maintaining global standards.

Spices are hygroscopic goods (hygroscopicity), which interact with the moisture in the air. The risk of mould growth is naturally at its highest in warm, damp air. The cargo may become musty, with the risk of self-heating in a high-moisture environment.

Work with PEACEGAT for a sustainable business growth

Peacegat premium Indian green cardamom is a well-known brand for quality and standards. We like to extend our supply chain to more geographical areas through reputed business houses. Our quality, grade, packing, and timely delivery are appreciated and accepted by traders and consumers in different countries.

Peacegat premium Indian green cardamom holds all statutory and quality approvals from different authorities. The acceptance of brand and product quality among consumers and traders is a good indicator for business growth. The branding and promotion activities will definitely improve the volume of business and brand image.

Peacegat premium Indian green Cardamom likes to associate with reputed business houses for joint development and growth.
