

No.1

Sinyavinskaya Poultry Farm is No.1 producer of egg and egg products in Russia.

Leningrad Region

SINYAVINSKAYA POULTRY FARM

With a history dating back from the first launch in 1978, we are the largest poultry farm producing eggs and egg products in Russia.

Modern technology and equipment used at the farm allows for maximum automation in sorting eggs, packaging and other processes according to industry best practices.

We carefully manage all stages of the complete egg production cycle to provide our customer the best quality under one roof and one brand.

Starting with feedstuff, rearing the young stock, management of parent stock, caring for the pullets and mature hens during the egg production period and ending with packaging and delivery, we handle it all.

Quality Standards

The thorough quality control system implemented at Sinyavinskaya Poultry Farm guarantees consistent high quality of our products. The products are shipped on the day of production or the next and our customers receive fresh class-A eggs.

Eggs are graded and marked with sorting date, country of origin, expiry date and Sinyavinskaya identification.

This marking is proof of freshness and product quality for our customers.

Egg Marking:

Yolk colour: 11–12 acc. to BASF scale

Weight of egg: L – 63–73 g
M – 53–62.9 g
S – 43–52.9 g

Freshness: Products are shipped on the day of sorting or the next day

Package: Pulp paper trays with deep pockets and low hygroscopic, durable, high quality P34 corrugated paper box compliant with the requirements of packing used in marine refrigerator transportation.

Storage and Shipment Logistics

Our own modern fleet of trucks connects a network of warehouse terminals and provides timely delivery in full volume.

The distribution centres are located in Leningrad Region allowing us to cover the European part of Russia and export the product extensively.

Export

Located in the vicinity of Saint-Petersburg marine port we are able to make use of optimal shipping routes to almost anywhere around the globe. This advantage allows us to offer competitive prices and delivery times to our customers.

The Company began exporting fresh chicken eggs in 2017. We have the capacity to ship 50–70 containers a month.

Sinyavinskaya products are sold in over 10 countries and we are expanding our exports to an ever increasing number of international clients.
