At Mr. Henry's we believe that every sip tells a story. It's a story of passion, dedication, and a commitment to creating a beverage that transcends boundaries. Our non-alcoholic malt beverage are the culmination of our journey, and we invite you to join us on this extraordinary adventure.

Our story begins with the passion of Mr. Henry himself, a Dutchman with a deep love for beer. He dreamt of bringing his own drink to the market, a beverage that would capture the essence of a great beer but without the alcohol. Inspired by his business associates in the Middle East, he wanted to honor their traditions and religion by offering a drink that they could enjoy together. To turn his vision into reality, Mr. Henry embarked on an extensive search for an innovative and modern production process.

The dealcoholizing process of Mr. Henry's beverage is not a standard process. Mr. Henry's has a very special approach to arrest fermentation through the careful control of sugars and yeast and special filtration process. This special new and innovative approach in processing results in a Malt Beverage with Authentic flavor as standard brews. Thanks to these processes we can guarantee A REAL 0,00% MALT BEVERAGE, unlike other beverages who claim to be 0,0% but in reality are 0,2% - 0,5%.

Produced in Bosnia and Herzegovina, Mr. Henry's is made with only the finest ingredients, the utmost care and a traditional brewing process to ensure an authentic and full-bodied taste. Natural mineral water which is used to produce Mr. Henry's products has made a journey of at least 60 years through rock layers up to hundreds of meters deep and is well protected by nature.
