THE STORY THAT BEGAN WITH A SEED

Colian was founded by the Kolański family in 1990 in Piątek Wielki near Kalisz. At the beginning, a company called Ziółopex was established, which produced herbs and spices. So, it all started with a seed, which once sown and properly nurtured, yields a crop, from which we still draw today.

Today, Colian is one of the main players on the Polish market for food products, especially confectionery. It provides a complete portfolio of excellent quality products that are well-known to consumers. The secret of its success lies in the production method, which combines tradition with modernity, and guarantees inimitable taste. The company, operating from Poland, successfully competes with international food corporations. It has 5 production plants located across the country. In total, it employs over 2,500 people.

Polish roots – global quality

Colian products are exported to nearly 70 countries worldwide.

They reach the farthest corners of the world, delighting the palates of consumers on all continents.

Feast for the senses

Coolky Cookies are distinguished by the combination of flavours and contrasting textures.

Every cookie is a unique composition of crispy biscuit topped with chewy caramel, studded with various nuts, dried fruits and cloaked in real chocolate. They come in many flavours, however you will always recognise them by their original “spiky” shape. Time spent with Coolky Cookies is a real feast for the senses. They are irresistible!

Plus, Coolky support the rehabilitation centre, which provides care for... hedgehogs! Pretty sweet, right?
