

Carbon Reduction Plan

Supplier name: ...GC Aesthetics.....

Publication date: ...29 June 2026.....

Commitment to achieving Net Zero

GC Aesthetics is committed to achieving Net Zero emissions by 2050.

Nagor Limited is wholly owned by GC Aesthetics and the commitment to achieving Net Zero emissions incorporates Nagor Limited. This means the environmental reduction targets also apply to Nagor Limited.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024	
Additional details relating to the Baseline Emissions calculations.	
Baseline Year Emissions:	
Emissions	TOTAL (tCO₂e)
Scope 1	1644
Scope 2	148
Scope 3 (included sources)	6958
Total Emissions	8750

Current Emissions Reporting

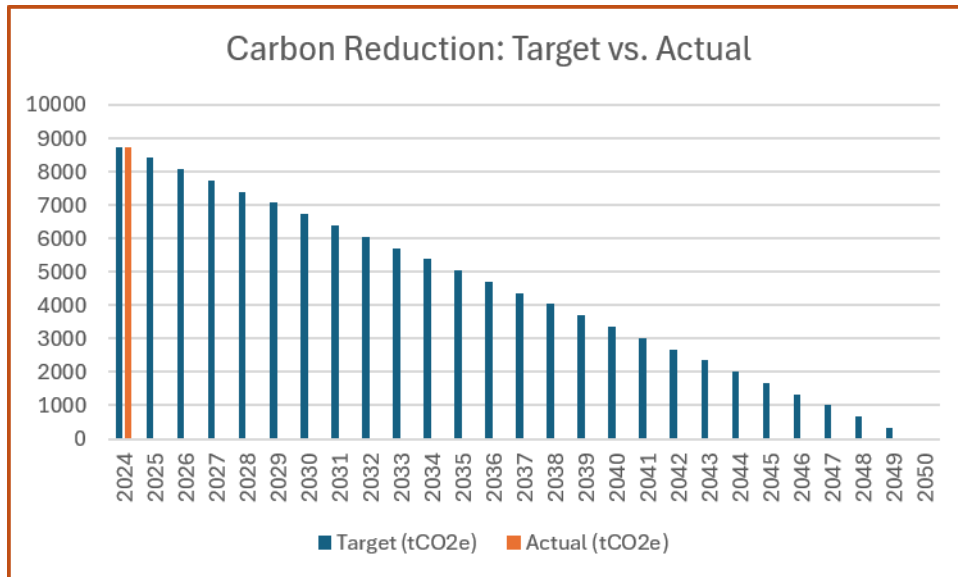

Reporting Year: 2024	
Additional details relating to the Baseline Emissions calculations.	
Baseline Year Emissions:	
Emissions	TOTAL (tCO ₂ e)
Scope 1	1644
Scope 2	148
Scope 3 (included sources)	6958
Total Emissions	8750

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease by 2030 to 6728 tCO₂e. This is a reduction of 23%.

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

We are currently reviewing our environmental management measures and projects since the 2024 baseline. Working alongside an external expert, we are implementing an action plan that supports our carbon emission reduction plan to continue the momentum in reaching our goals. This will demonstrate a reduction against the 2024 baseline of 23% (2022 tCO₂e).

We have implemented the following:

- *Promote car commuting sharing*
- *Reducing commuting*
- *Limit business trips*
- *Train GCA employees on ESG*

In the future we hope to implement further measures such as:

- *Move from air to sea shipment for Silicon*
- *Improve oxidizer technology*
- *Sign up to SBTi*
- *Move car fleet to electrical cars*
- *Perform CSRD report*

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹³ and uses the appropriate government emission conversion factors for greenhouse gas company reporting.¹⁴

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.¹⁵

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the GC Aesthetics:
