90CM INDUCTION COOKTOP - 5 COOKING ZONES AND HIDDEN SINGLE SLIDER WITH WHITE LED

The Future of Cooking

Combining precision engineering, refined Italian craftsmanship, and innovative technology, Bertazzoni induction cooktops redefine the cooking experience. With their outstanding performance and sophisticated design, they transform everyday meals into effortless and enjoyable culinary moments.

New Bertazzoni made-in-Italy induction cooktops

Bertazzoni introduces a new Premium and Super-Premium induction cooktop line-up, made in Italy, marking a milestone in the brand's history. These cooktops combine cutting-edge technology, superior performance, and an elegant minimalist design, setting new standards for modern kitchens.

Distinctive Italian Design

The hidden user interfaces and minimal serigraphies contribute to a clean and refined aesthetic, blending seamlessly into modern kitchen environments. When the cooktop is powered off, the interface remains completely invisible, preserving the minimalist design. When activated, the hidden slider control provide an intuitive and sophisticated user experience.

Unmatched Cooking Performances

The Flexi-Zone Technology enhances cooking flexibility by linking adjacent cooking zones, enabling the use of larger cookware or griddles while maintaining uniform heat distribution. The octagonal induction elements optimize energy efficiency and eliminate hot spots, delivering consistently superior results for every dish.

Safety and Ease of use

Designed with user safety in mind, these cooktops include Safety Lock functions to prevent unintended use. The Pause and Recall feature allows users to temporarily stop and resume cooking effortlessly. The End-of-Cooking Timer ensures precise timing for each cooking zone, preventing overcooking and delivering consistently great results.

GENERAL CHARACTERISTICS

Control type	Hidden single slider with white led
Control position	Front
Power limitation	Yes
Child lock	Yes
Residual heat indicator	Yes
Overflow security	Yes
N° Cooking Zones	5
N° Multizone	1 Multizone
Grill function	Yes

COOKING ZONES

Cooking zone size PS [mm]	190x210
Cooking zone size PD [mm]	200
Power of the cooking zone PS [W]	2100 - PB: 3000
Power of the cooking zone PD [W]	2300 - PB: 3000
Cooking zone size AS [mm]	190x210
Cooking zone size AC [mm]	250
Cooking zone size AD [mm]	145
Power of the cooking zone AS [W]	2100 - PB: 3000
Power of the cooking zone AC [W]	2300 - PB: 3000
Power of the cooking zone AD [W]	1400 - PB: 1850

TECHNICAL SPECIFICATIONS

Electrical requirements	220-240 V , 50/60 HZ - 11100 W 48 A
Absorbed current [A]	48 A
Packaging dimensions (mm)	H: 160 W: 1030 D: 663
Weights (kg)	Net: 23.0 kg Gross: 25.0 kg
