

# GEOTAB GARMIN BUNDLE

NOW WITH THIRD-PARTY APPS & OVER-THE-AIR UPDATES

The Geotab Garmin Bundle is a reliable and user-friendly fleet platform for tracking, managing, and sharing records of duty status (RODS). The industrial-grade hardware and specialized truck maps and routing is optimal for long-haul commercial truck use.

## More Than Commercial Trucking Maps

Get onboard North American maps with a lifetime of free updates, plus customized truck routing based on the size and weight of your truck and road warnings, for bridge heights, weight limits, sharp curves, inclines and more!

## New Pro Mode with Third-Party Apps

With Pro Mode, you have the ability to load third-party apps through the Mobile Device Management (MDM) application.

## Over-the-Air (OTA) Updates

Software updates over cellular network instead of Wi-Fi means less hassle for drivers. Note: Map updates require Wi-Fi.

## Bundle Includes\*

- + Geotab Cloud ELD (with Geotab Drive Mobile App)
- + Garmin fleet™ 790 Android Tablet with 7" Touch Display, Wi-Fi and HD Dash Camera
- + Suction Cup Mount
- + Vehicle Charger

- + Rugged Design
- + Easy, Reliable Maintenance & Support
- + Download Android Apps\*
- + Integrated Dual-Purpose Camera
- + Integrated Commercial Truck Navigation
- + Wide Variety of Accessories

# The Value of the Geotab Garmin Bundle

The **Geotab Garmin Bundle** is a mobility management solution that combines convenience and durability. It is a productivity tool to help improve and grow your business by providing full visibility into your fleet. It is a safety tool to help keep drivers safe through continuous recording using a front-facing HD dash camera. It is a fleet optimization tool to help identify and reduce unproductive miles through extensive reporting, and it is a compliance tool to help keep fleets up-to-date with legislation changes and new regulations.
