HRN-IOXEXT - IOX Extension Cable

For the most up-to-date version, please visit: **https://gtb.page.link/wzAY**

Professional Installation Required — Successful application of this harness/IOX requires sufficient technical knowledge and expertise for the respective installation, i.e. Certified Geotab Installer or equivalent.

⚠ 📖 **WARNING!** Read important related Safety Information and **Limitations of Use** following these installation instructions. The GO device must be disconnected from the vehicle prior to harness/IOX installation. Post harness/IOX installation, connect the GO device, read and follow all **instructions** and warnings to prevent serious injury and/or vehicle damage.

NOTICE: Refer to the table below for the maximum number of IOXs supported, depending on your configuration. Failure to follow these instructions may result in potential loss of data, and could result in malfunctions of downstream IOXs or other anomalous behavior.

For daisy chain configurations, do not exceed the following maximums:

Quantity of HRN-IOXEXT cables used	Maximum quantity of IOX devices supported
1	5
2	2

Step 1 Connect HRN-IOXEXT to IOX devices and/or additional IOX extension cables to form a daisy chain.

Step 2 Connect the daisy chain to the IOX expansion port of the GO device.
